**MOTION/RECOMMENDATION:**

Request authorization to appropriate \$48,991 of US 17-92 CRA funds to complete the Fern Park Hardscape/Streetprint project as recommended by the US 17-92 Redevelopment Planning Agency.

**BACKGROUND:**

The US 17-92 Redevelopment Planning Agency, at its February 28, 2003 meeting, recommended forwarding a proposal to the US 17-92 Community Redevelopment Agency for CRA funds in the amount of \$48,991 to complete the Fern Park Hardscape/Streetprint project. The original scope of the Fern Park Hardscape/Streetprint project has been expanded to include improvements to the O'Brien Road intersection in addition to the intersections at Spartan Drive and Lake of the Woods Boulevard.

The project at each intersection would include milling and resurfacing, application of decorative streetprint within the intersections and cross walk areas (similar to Winter Springs Blvd./Tuscawilla Rd intersection), and additional striping of the crosswalks for enhanced safety. Project cost estimates per intersection are provided on the attachment entitled "Fern Park Streetprint Project".

The County's Engineering Division is directing the design and construction components of this project including the coordination with the Florida Department of Transportation related to permitting and maintenance of traffic plans.

The project maintains an existing appropriation of \$176,408 in the adopted FY02/03 US 17-92 CRA budget. Additional funds are available in the US 17-92 CRA Fund undesignated account. The current balance of undesignated funds within the US 17-92 CRA Fund is \$160,830.
