

## **REQUEST FOR PROPOSALS**

- 18. Approve Amendment #2 to RFP-4242-05/GMG (Part B) – Term Contract for Asphalt Base Stabilization and Related Services with Asphalt Recycling, Inc. Melbourne Beach, Florida. (Price Increase due to Market Conditions).**

RFP-4242-05/GMG with Asphalt Recycling, Inc., Melbourne Beach, Florida, provides for asphalt base stabilization and related services. Amendment #2 will provide for an increase in the cost of asphalt emulsion (Item 8-4), from \$1.30 to \$1.40 per gallon. Purchasing & Contracts staff reviewed the Contractor's justification for the increase and upon determining its validity; a survey of pricing information was conducted to make sure the price increase was fair and reasonable. A lesser increase was successfully negotiated with the Contractor, whose initial proposed increase was \$1.44 per gallon.

Fiscal Services Department/Purchasing and Contracts Division recommends that the Board approve amendment as prepared and approved by the County Attorney's Office and authorize the County Manager to execute the amendment.

RE: Pricing Update for PABS Emulsion Material

Dear Ted:

We have incorporated a number of price increases for our other emulsion products since our last increase to you back in October, but have managed to retain your price to this date at the \$1.01 per gallon, FOB Tampa price that had been in effect prior to any of those increases.

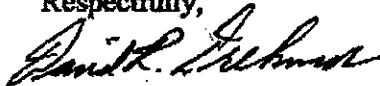

As you know there have been many changes in the petroleum arena in general over this period of time. The cumulative effect of these changes is cause for us to need to increase our pricing, effective March 27<sup>th</sup>, for the PABS product. The change is as follows:

**PABS product will be \$1.13 per gallon FOB, Tampa**

Price is subject to change without notice, with changes in the petroleum arena.

We appreciate your business and the relationship we have with you. The changes I've shared here are, unfortunately, overdue at this point. As always, if there are any questions or items we need to discuss please don't hesitate to contact me at 813/436-6137.

Respectfully,

David R. Drehmer
