

26. Authorize Sole Source Procurement and authorize the issuance of a Purchase Order for the installation of five (5) YSI Continuous Monitoring Water Quality Stations to AMJ Equipment Corp. of Lakeland, FL (\$26,325.00).

Public Works/Stormwater requests sole source approval and waiver of the bid process to install five YSI Continuous Monitoring Water Quality Stations. At their August 13, 2002 meeting, the BCC approved the sole source purchase of the five Monitoring Systems from YSI, Inc. under a U.S. Environmental Protection Agency grant (USEPA). The five systems are now ready to be installed, however AMJ is the only approved vendor for the installation of these systems in the State of Florida.

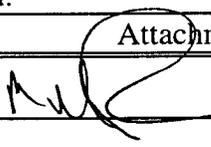

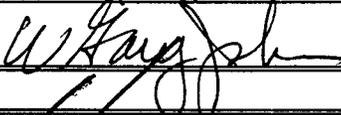

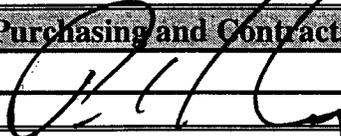

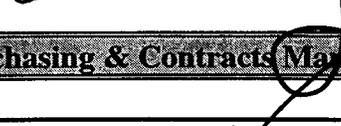

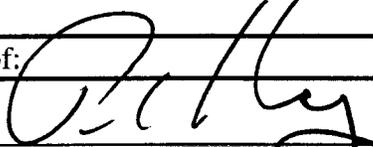

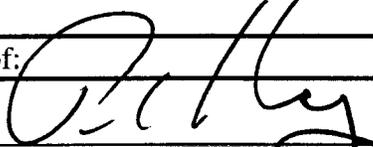

These monitoring stations will have a direct tie into the U.S. Geological Survey's (USGS) telemetry system at four locations. The price quoted includes all labor and material necessary for the installation, plus coordination with USGS to get the stations up and running. The data collected from these instruments will be used by the County to correlate and improve real-time water quality sampling in accordance with the FDEP.

Approval of this request for a waiver is consistent with the 2002 waivers granted by the USEPA and the BCC. Funds are available in account number 077600-56063000, Project #DC69 031X. Public Works /Stormwater Division and Fiscal Services/Purchasing and Contracts Division recommend that the Board approve the Sole Source Procurement and authorize the issuance of a Purchase Order to AMJ Equipment Corp. in the amount of \$26,325.00.

Date Submitted: April 22, 2003	Requester: Marie Lackey
Requisition No: 2321363	Dept./Div. Name: PW/Road Ops & Stormwater
Item Description: Installations of Water Quality Deploy Units	
Your Selected Vendor's Name: AMJ	
Vendor's Address: 5101 Great Oak Drive, Lakeland, FL 33815	
Vendor's Phone #: 800-881-1487	Contact Name: Matt Previte
Justification (Why is this the only item which will meet your need?)	
<p>In January 2003, Road Operations & Stormwater Division purchased through the EMPACT grant five (5) highly technical water quality sampling instruments manufactured by YSI (Yellow Springs Instruments) to deploy in water bodies throughout Seminole County.</p> <p>AMJ is the only approved vendor for the YSI units in the State of Florida for sales and installation. These units will also have a direct tie into the USGS telemetry system at four (4) locations. This quote includes all labor and materials needed and coordination with USGS to get these units up and running.</p> <p>The data collected from these instruments will be used by the County to correlate and improve real-time water quality sampling as it relates directly to the TMDL process overseen by FDEP.</p>

25. **Authorize Sole Source Procurement and authorize the issuance of a Purchase Order for five (5) YSI Continuous Monitoring Water Quality Stations to Endeco YSI, Inc., Marion, MA, (\$89,897.40).**

Public Works/Stormwater requests sole source approval and waiver of the bid process to purchase the equipment necessary to deploy five continuous water quality monitoring stations

Public Works/Stormwater currently has one active station and has a US EPA grant that provides for five (5) additional stations to be purchased and added to the existing Seminole Watershed Atlas. In order to maintain consistency with the current system, the additional stations must be purchased from sole provider, Endeco YSI, Inc. of Marion, MA.

The EPA has waived their competition requirements and agreed to a noncompetitive procurement (see the waiver on page 3 of the attached US EPA EMPACT Grant #R-82932001, "An Online Dynamic Watershed Atlas for Seminole County").

Funds are available in account number 077600-56068000, (Stormwater, Construction & Design), Project #DC69173X). Public Works/Stormwater and Fiscal Services/Purchasing and Contracts Division recommend that the Board authorize the Sole Source Procurement and authorize the issuance of a Purchase Order to Endeco YSI, Inc.
