

18. Approve a Sole Source for Software Maintenance of IBM Software to IBM Corporation, Smyrna, GA (Not-to-exceed \$25,590.00/year).

This sole source will provide for maintenance of IBM operating systems software. IBM is the sole source provider of operating system upgrades and software support for our equipment running IBM software. Access to IBM source code is restricted to IBM, making IBM the only source for this maintenance.

Subject to mutual agreement by both IBM Corporation and Seminole County, this Maintenance Agreement may be renewed for an additional one (1) year terms upon the County paying the then current annual fee assessed by IBM.

Funds are available in account number 140300-53046000 (Information Services, Repairs and Maintenance). The County Manager has approved the use of General Funds for this purchase since the purchase exceeds \$10K. Information Services and Fiscal Services/Purchasing recommend the Board to approve the Sole Source, award the project and authorize the agreement to be executed via Purchase Order.
