## COMPREHENSIVE PLAN CONSISTENCY AND ZONING ANALYSIS

**1. PLAN PROGRAMS** - Plan policies address the continuance, expansion and initiation of new government service and facility programs, including, but not limited to, capital facility construction. Each application for a land use designation amendment will include a

description and evaluation of any Plan programs (such as the effect on the timing/financing of these programs) that will be affected by the amendment if approved.

**Summary of Program Impacts:** The proposed future land use and zoning amendments would not alter the options or long-range strategies for facility improvements or capacity additions included in the Support Documentation to the Vision 2020 Plan. The amendment request would not be in conflict with the Metroplan Transportation Plan or the Florida Department of Transportation's 5-Year Plan (Transportation Policy 14.1).

A. **Traffic Circulation - Consistency with Future Land Use Element:** *In terms of all development proposals, the County shall impose a linkage between the Future Land Use Element and the Transportation Element and all land development activities shall be consistent with the adopted Future Land Use Element (Transportation Policy 2.1).*

The subject property accesses Executive Park Court, which is classified as a local street and does not have an adopted level of service. The nearest major roadway is SR 436, which is classified as a Principal Arterial and has an adopted level of service (LOS) "D". SR 436 currently operates at a LOS "E" in that area. The proposed development passed concurrency because it will generate an insignificant amount of traffic (less than 0.1% of the roadway capacity).

B. **Water and Sewer Service – Adopted Potable Water and Sanitary Sewer Service Area Maps:**

The subject property is located within the Seminole County water and sewer service areas. Both water and sewer services are available to the site, although the developer has not yet reserved capacity.

C. **Public Safety – Adopted Level of Service:** *The County shall maintain adopted levels of service for fire protection and rescue...as an average response time of five minutes (Public Safety Policy 12.2.2).*

The property is served by Seminole County EMS/Fire Station #13. Response time is less than 5 minutes, which meets the County's average response time standard of 5 minutes.

**2. REGULATIONS** - The policies of the Plan also contain general regulatory guidelines and requirements for managing growth and protecting the environment. These guidelines will be used to evaluate the overall consistency of the land use amendment with the Vision 2020 Plan, but are not applied in detail at this stage.

A. **Preliminary Development Orders: Capacity Determination:** *For preliminary development orders and for final development orders, under which no development activity impacting public facilities may ensue, the capacity of Category I and Category III public facilities shall be determined as follows...No rights to obtain final development orders under which development activity impacting public facilities may ensue, or to obtain development*

*permits, nor any other rights to develop the subject property shall be deemed to have been granted or implied by the County's approval of the development order without a determination having previously been made that the capacity of public facilities will be available in accordance with law (Implementation Policy 1.2.3).*

A review of the availability of public facilities to serve this property indicates that adequate public facilities either exist or could be made available concurrent with the impacts of development.

**B. Flood Plain and Wetlands Areas - Flood Plain Protection and Wetlands Protection:** *The County shall implement the Conservation land use designation through the regulation of development consistent with the Flood Prone (FP-1) and Wetlands (W-1) Overlay Zoning classifications...(Policy FLU 1.2 and 1.3).*

Based on a preliminary analysis, staff identified no concerns regarding environmental regulation compliance.

**C. Protection of Endangered and Threatened Wildlife:** *The County shall continue to require, as part of the Development Review Process, proposed development to coordinate those processes with all appropriate agencies and comply with the US Fish and Wildlife Service and the Florida Fish and Wildlife Conservation Commission Rules as well as other applicable Federal and State Laws regarding protection of endangered and threatened wildlife prior to development approval (Conservation Policy 3.13).*

Prior to final site engineering approval, the applicants must submit an Endangered and Threatened Species Report.

**3. DEVELOPMENT POLICIES** – The comprehensive plan contains additional criteria and standards that describe when, where and how development should occur. Plan development policies will be used to evaluate the appropriateness of the use, intensity, location, and timing of the proposed amendment.

**A. Compatibility:** *When the County's Future Land Use Map (FLUM) was developed in 1987, land use compatibility issues were evaluated and ultimately defined through a community meeting/hearing process that involved substantial public comment and input. When amendments are proposed to the FLUM, however, staff makes an initial evaluation of compatibility, prior to public input and comment, based upon a set of professional standards that include, but are not limited to criteria such as: (a) long standing community development patterns; (b) previous policy direction from the Board of County Commissioners; (c) other planning principles articulated in the Vision 2020 Plan (e.g., appropriate transitioning of land uses, protection of neighborhoods, protection of the environment, protection of private property rights, no creation of new strip commercial developments through plan amendments, etc.).*

Based upon an initial evaluation, the proposed Planned Development future land use land use and PCD zoning is compatible with the surrounding land uses in this area.

The soccer academy is an indoor facility and is proposed in an existing office park adjacent to a daycare center. The approved plat, of which the subject property is a part, has a 35' landscape buffer designated along the south property line. The proposed site plan included in the Developer's Commitment Agreement complies with this requirement.

**B. Concurrency Review - Application to New Development:** *For purposes of approving new development subsequent to adoption of this Comprehensive Plan, all adopted public facilities level of service standards and schedules of capital improvements...shall be applied and evaluated...consistent with policies of the Implementation Element... (Capital Improvements Policy 3.2).*

This policy provides for the adoption of level of service (LOS) standards for public facilities and requires that final development orders be issued only if public facilities meeting the adopted LOS are available or will be available concurrent with the impacts of development. Additionally, preliminary development orders shall only be issued with the condition that no rights to obtain final development orders or development permits, nor any other rights to develop the subject property are granted or implied by the County's approval of the preliminary development order.

**4. SCHOOL IMPACTS** – The proposed project will not impact public schools.

#### **Intergovernmental Notice**

In 1997, Seminole County entered into an Intergovernmental Planning Coordination Agreement with the School Board and the Cities of Altamonte Springs, Casselberry, Lake Mary, Oviedo, Sanford and Winter Springs. The proposed rezone and land use amendment will not affect any of the agencies covered under this planning agreement.

#### **STAFF RECOMMENDATION:**

ENACT an ordinance that adopts a Small Scale Land Use Amendment from Office to PD (Planned Development) and enact an ordinance that rezones approximately 0.54 acres located on the east side of Executive Park Court, between SR 436 and Glocca Morra Drive from OP (Office Professional District) to PCD (Planned Commercial Development District), and approve the Final PCD Site Plan, subject to the attached Developer's Commitment Agreement, and authorize the Chairman to execute the aforementioned documents.

#### **PLANNING AND ZONING COMMISSION RECOMMENDATION**

The Planning and Zoning Commission met on May 4, 2005 and voted 4 to 0 to recommend APPROVAL of the request for a Small Scale Land Use Amendment from Office to PD (Planned Development) and Rezone from OP (Office Professional District) to PCD (Planned Commercial Development District) and Final PCD Site Plan, subject to the

attached Developer's Commitment Agreement, on approximately 0.54 acres located on the east side of Executive Park Court, between SR 436 and Glocca Morra Drive.

(b) The associated rezoning request was completed by means of Ordinance Number 2005-\_\_\_\_.

Section 3. SEVERABILITY:

If any provision of this Ordinance or the application to any person or circumstance is held invalid, it is the intent of the Board of County Commissioners that the invalidity shall not affect other provisions or applications of this Ordinance which can be given effect without the invalid provision or application and, to this end, the provisions of this Ordinance are declared severable.

Section 4. EXCLUSION FROM COUNTY CODE/CODIFICATION:

(a) It is the intent of the Board of County Commissioners that the provisions of this Ordinance shall not be codified into the Seminole County Code, but that the Code Codifier shall have liberal authority to codify this Ordinance as a separate document or as part of the Land Development Code of Seminole County in accordance with prior directions given to said Code Codifier.

(b) The Code Codifier is hereby granted broad and liberal authority to codify and edit the provisions of the Seminole County Comprehensive Plan, as amended

Section 5. EFFECTIVE DATE:

(a) A certified copy of this Ordinance shall be provided to the Florida Department of State by the Clerk of the Board of County Commissioners in accordance with Section 125.66 and 163.3187, Florida Statutes.

(b) This Ordinance shall take effect upon filing a copy of this Ordinance with the Department of State by the Clerk of the Board of County Commissioners; provided, however, that the effective date of the Plan amendment set forth herein shall be thirty-one (31) days after the date of enactment by the Board of County Commissioners or, if challenged within thirty (30) days of enactment, when a final order is issued by the Florida Department of Community Affairs or the Administration Commission determining that the amendment is in compliance in accordance with Section 163.3184, Florida Statutes, whichever occurs earlier. No development orders, development permits, or land use dependent on an amendment may be issued or commence before an amendment has become effective. If a final order of noncompliance is issued by the Administration Commission, the affected amendment may nevertheless be made effective by the Board of County Commissioners adopting a resolution affirming its effective status, a copy of which resolution shall be provided to the Florida Department of Community Affairs, Bureau of Local Planning, 2555 Shumard Oak Blvd., Tallahassee, Florida 32399-2100 by the Clerk of the Board of County Commissioners.

(Z2005-003 / 01-05SS.02).

Commissioner Van Der Weide – District 3

Tina Deater, Senior Planner

Tina Deater presented the Executive Park Court Complete Soccer Academy application for a Small Scale Land use Amendment from Office to Planned Development, and a Rezone from Office Professional to Planned Commercial Development, and final site plan approval. The subject property contains approximately 0.54 acres and is located on the east side of Executive Park Court, between SR 436 and Glocca Morra Drive. The current Future Land Use on the subject property is Office and the current zoning is Office Professional.

Ms. Deater stated that the applicant proposes to build an indoor soccer academy and per Section 30.465 of the Seminole County Land Development Code, the applicant has opted to present the Preliminary Site Plan as the Final Site Plan.

Based upon staff's evaluation, the proposed Planned Development future land use and PCD zoning would be compatible with the surrounding land uses in this area. The soccer academy is an indoor facility, similar to the office use that is already approved for the site and it is proposed in an existing office park adjacent to a daycare center. When the plat, of which the subject property is a part, was

approved in 1987, a 35-foot landscape buffer was designated along the south property line.

The proposed site plan included in the Developer's Commitment Agreement complies with this requirement; therefore the residential properties to the south will be buffered sufficiently.

Staff recommends approval of the request for a Small Scale Land Use Amendment from Office to PD (Planned Development) and Rezone from OP (Office Professional District) to PCD (Planned Commercial Development District), subject to the Developer's Commitment Agreement, and Final PCD Site Plan contained in the staff report.

John Cassidy of 292 Bentley Drive spoke next. He stated that he would be restricted to 49 persons in the building due to building size and parking limitations.

Commissioner Hattaway noted that there were 20 parking spaces. The parking would spill out onto the road.

Mr. Cassidy said that there would be 8 – 12 students per class and that there could be 2 classes at a time. Many students would be drop-offs.

Commissioner Hattaway asked if there would be large groups and games there.

Mr. Cassidy stated that there would be no games or competitions there. Students are to be instructed only. He has an agreement to rent fields away from the facility.

Commissioner Brown asked about the ages of the students.

Mr. Cassidy said that there would be students from age 5 to professional level. Older students might have a 1 to 3 class ratio. Students could be dropped off. Some would be in car pools. He planned to serve nearby neighborhoods.

Commissioner Tucker stated that the traffic conditions on SR 436 prohibit use of bicycles.

No one spoke from the audience on the application.

Commissioner Brown asked about the safety and adequacy of parking space number one on the site plan.

Tom Radzai stated that the parking place was all right.

**Commissioner Dorworth made a motion to recommend approval.**

Commissioner Hattaway seconded the motion.

The motion passed by a vote of 4 – 0.

Re: Executive Park Court (645) Complete Soccer Academy, Small Scale Land Use  
Amendment from Office to Planned Development; Rezone from Office Professional  
District to Planned Commercial Development; Final Site Plan Approval

Dear Ms. Deater:

The purpose of this letter is to provide comments on the proposed land use change described above. Kinder-Care Learning Centers, Inc. ("KinderCare") owns a childcare center at 625 Executive Park Court immediately to the north of the proposed soccer center.

Although we've not yet had an opportunity to completely evaluate the proposed land use change and development, we do have some initial concerns. Our first and primary concern is with respect to the traffic impact this development will have on an already difficult intersection at SR 436 and Executive Park Court. We understand that the soccer center may be offering before and after-school services to school-aged children, which will increase intersection traffic at precisely the same time our center's students will be coming to and departing from our center.

Second, we understand that there are a great number of protected tortoises in the area, including where the proposed development is to be placed. Our students have enjoyed observing the tortoises for years and KinderCare requests that all reasonable steps be taken to assure these tortoises are treated humanely.

Seminole County Planning Division  
May 4, 2005  
Page 2 of 2

Finally, a land use amendment and zoning change for a single lot may constitute "spot zoning". Kindercare is somewhat concerned about a zoning approach that is other than comprehensive.

Kindercare requests that the county fully explore these issues before making any final decision on the proposed land use change. We plan to have representatives attend, but not participate, in tonight's hearing. Please direct any future notices and correspondences to my attention at the address specified above.

Sincerely,

Rene G. Gonzalez
