

If the Board of County Commissioner's reverses the Board of Adjustment's decision the existing carport will be required to be removed or placed in a location that will comply with the setback requirements of a detached accessory structure per Land Development Code Section 30.1345.

STAFF RECOMMENDATION:

Reverse the Board of Adjustment decision to approve a rear yard setback variance from 30 feet to 10 feet for an existing carport based on staff findings.

STAFF REPORT

BACKGROUND / REQUEST:	<ul style="list-style-type: none"> • The property owner was cited on July 6, 2005 by the Seminole County Building Division for unpermitted construction on the property. • The property owner applied to the Building Division for a building permit for a 20' x 20' carport and submitted plans on October 10, 2005. The Building Permit was not issued due to the carport not meeting the required setbacks. • The required setbacks for a detached accessory structure exceeding 200 sq. ft. in size and/or 12 ft. in height shall meet all of the district setback and requirements applicable to the main residential structure located on the same parcel. Therefore the 400 sq. ft. carport would have to comply with all of the setback requirements for the main residential structure in the R-1AAA zoning district. The carport meets all the required setbacks except for the 30 foot rear yard setback which is why the property owner had to apply for the variance. • The property owner applied for the variance on March 22, 2006 for the existing carport and appeared at the May 22, 2006 Board of Adjustment meeting. At that meeting, the Board of Adjustment approved the requested variance for the existing carport. • The Wellington Terrace Homeowners Association submitted the application to appeal the Board of Adjustment's decision to the Planning Division on June 6, 2006. • There is no record of any approved variances for carports in the immediate area of the subject property.

STAFF FINDINGS:	<p>The Board of County Commissioners shall have the power to hear and decide appeals from Board of Adjustment decisions, including variances the Board of Adjustment is specifically authorized to pass under the terms of the Land Development</p>																								

Code upon determination that all of the following provisions of **Section 30.43(b)(3)** are satisfied:

a) That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same zoning classification.

No special conditions or circumstances exist on this property that would warrant a carport to be placed in that location.

b) That the special conditions and circumstances do not result from the actions of the applicant.

No special conditions or circumstances exist that would prevent the property owner from constructing a detached accessory structure in compliance with the Land Development Code. In addition, the property owner constructed the illegal carport on the property without obtaining the proper permits.

c) That granting the variance requested will not confer on the applicant any special privilege that is denied by Chapter 30 to other lands, buildings, or structures in the same zoning classification.

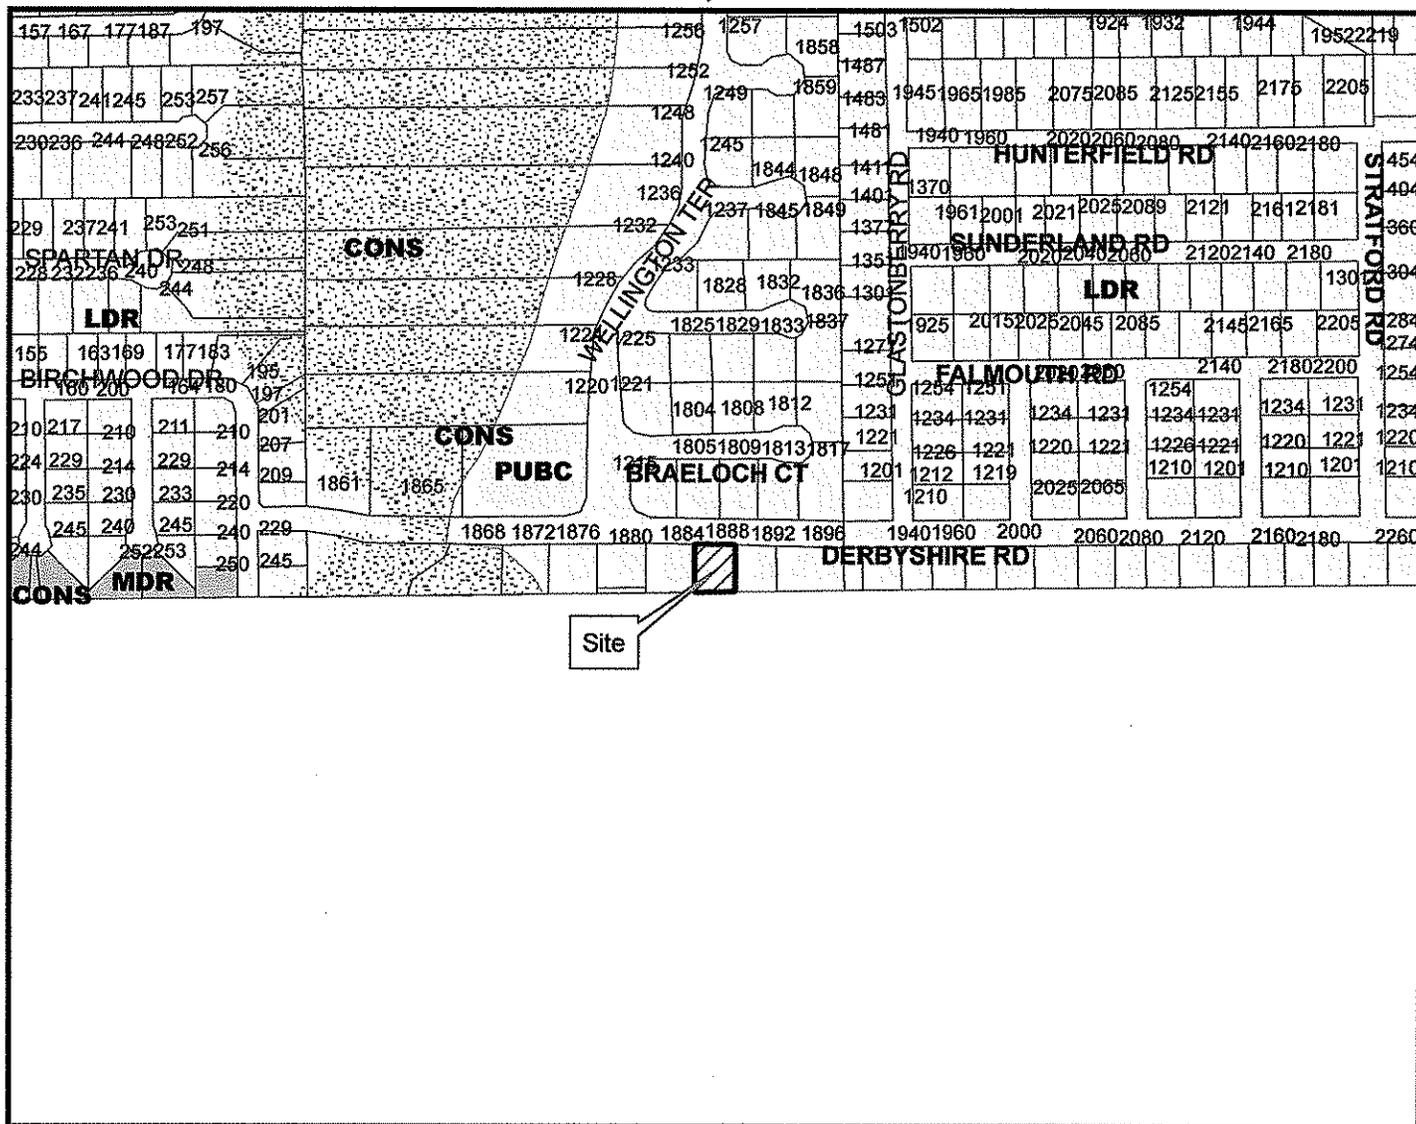

The grant of the requested variance will confer on the property owner special privileges due the fact that other property owners in the Wellington Subdivision have detached accessory structures that comply with the regulations of the Land Development Code. The property owner also could have constructed the detached accessory structure in compliance with the Land Development Code.

d) That literal interpretation of the provisions of Chapter 30 would deprive the applicant of rights commonly enjoyed by other properties in the same zoning classification and would work unnecessary and undue hardship on the applicant.

The literal interpretation would not deprive the property owner of rights commonly enjoyed by others due to the fact that other residents of the Wellington Subdivision have detached accessory structures that comply with the regulations of the Land Development Code. The property owner also could have constructed the detached accessory structure in compliance with the Land Development Code.

	<p>e) That the variance granted is the minimum variance that will make possible the reasonable use of the land, building, or structure.</p> <p>The property owner will still retain reasonable use of the property without the requested variance because the carport could be placed in a location which would comply with the regulations of the Land Development Code.</p> <p>f) That the grant of the variance will be in harmony with the general intent and purpose of Chapter 30, will not be injurious to the neighborhood, or otherwise detrimental to the public welfare.</p> <p>The grant of the variance will not be in harmony with the trend of development of the neighborhood because other residents of the subdivision have detached accessory structures that comply with the regulations of the Land Development Code.</p>
<p>STAFF RECOMMENDATION:</p>	<ul style="list-style-type: none"> • Based on the stated findings, staff recommends the Board of County Commissioners <u>reverse</u> the decision of the Board of Adjustment to approve a rear yard setback variance from 30 feet to 10 feet for an existing carport in the R-1AAA (Single-Family Dwelling District).

NATURE OF THE CARPORT VARIANCE APPEAL:

- A permit was **NOT** requested and obtained from Seminole County **PRIOR** to the construction of the carport the end of 2004.
- **Timeline –**
 - 6/3/05: Seminole County Code Enforcement was contacted for un-permitted construction.
 - 7/6/05: Notice of Violation was cited by Code Enforcement regarding installation without a permit.
 - 7/28/05: First of three certified letters of compliance sent. Four extensions have been granted to the homeowner to comply.
- The **Staff Recommendation** from the Seminole County Government Board of Adjustment, *Agenda Memorandum* of 5/22/06 states: “Based on the stated findings, **staff recommends denial of the request**, unless the applicants can demonstrate a hardship.”
- The consensus of the Wellington homeowners is that the owners of 1888 did not demonstrate the hardship recommended above to be necessary to approve the variance.
- 5/22/06 - The Seminole County Board of Adjustment Approved the Variance, but as will be noted in the minutes it was a split decision, *only approved as they wanted to move the matter forward feeling that either decision would be appealed.*

Several items that were a factor in the approval were misunderstood:

- A request for approval from the Wellington Home Owners’ Architectural Review Board was **NOT** submitted **PRIOR** to the construction of the carport. Wellington HOA was **NOT** a factor in delaying the construction of the structure as it was already in place. On 1/3/05, a notice of violation was sent from the Wellington HOA for violation of the installation of the carport. Followed by a 2nd notice on 2/15/05. (See attached).
- The *courtesy notice of public hearing* was only sent to the two neighbors on either side of 1888 Derbyshire Road and **BOTH** neighbors sent objections to the variance. (See attached for Lots 77 & 79) The resident located directly behind 1888 Derbyshire Road, is located in Orange County, and was **NOT** notified of the variance or the meeting on 5/22/06.
- Wellington Terrace is an established neighborhood that has been in existence for more than 25 years with recorded home sales in the last 12 months from \$400,000 to over \$1,000,000. The carport constructed does not coincide with the neighborhood’s traditional character and integrity for many reasons including: set-back, size (20x20, about 400 square feet), and material used (silver metal). The carport construction is clearly a violation of the Wellington HOA bylaws. The structure is typically used in a business or rural setting not in the Wellington subdivision or the surrounding residential neighborhoods.
- If this structure is approved by Seminole County, it will set precedence over the entire community that **HUGE** metal carports (20 x 20) can be constructed.
- **To date 71 residents** of Wellington’s 80 homes have signed the request to deny the variance. (See attached.) The residents of Wellington would like to request that the variance be appealed and the carport removed.

NOTICE OF CODE VIOLATION

LOCATION OF VIOLATION: 1888 DERBYSHIRE RD

IN ACCORDANCE WITH SEMINOLE COUNTY CODES YOU ARE HEREBY NOTIFIED THAT THE ABOVE DESCRIBED PROPERTY IS IN VIOLATION OF FLORIDA BUILDING CODE CHAPTER/ARTICLE CH. 1 SECTION 104.

DESCRIPTION OF VIOLATION: CONSTRUCTED OR INSTALLED 2 CAR ALUMINIUM CARPORT STRUCTURE, VINYL AND WOOD PRIVACY FENCE, AND SHED IN BACK YARD WITHOUT PERMIT.

CORRECTIVE ACTION: OBTAIN (ALL) PROPER PERMITS AND SCHEDULE ALL REQUIRED INSPECTIONS.

THE ABOVE CORRECTIVE MEASURES MUST BE TAKEN BY 7-20-05

FAILURE TO CORRECT THE ABOVE VIOLATION WILL RESULT IN THE MATTER BEING TURNED OVER TO THE CODE ENFORCEMENT BOARD FOR FURTHER ACTION. THE CODE ENFORCEMENT BOARD HAS THE AUTHORITY TO LEVY FINES UP TO \$250.00 A DAY FOR EVERY DAY THE VIOLATION EXISTS.

IF CHECKED, A LICENSE REVOCATION HEARING WILL BE SCHEDULED FOR APPLICABLE CONTRACTOR VIOLATIONS.

**MINUTES FOR THE SEMINOLE COUNTY BOARD OF ADJUSTMENT
MAY 22, 2006
ITEM #4**

1888 DERBYSHIRE ROAD – Neal Winnie, Michelle Winnie, and William Cluff, applicants; Request for a rear yard setback variance 30 feet to 10 feet for an existing carport in the R-1AAA (Single-Family Dwelling District); Located on the south side of Derbyshire Road approximately 300 feet east of Wellington Terrace and Derbyshire Road; (BV2006-054).

Ian Sikonia, Planner

Ian Sikonia introduced the location of the property and stated that the applicant constructed an approximately 400 square foot aluminum carport in the rear of the property. He further stated that the applicant was cited on June 3, 2005 by the Seminole County Code Enforcement Department for the construction of the carport without a permit. He then stated that the applicant had submitted plans to the Building Division for the carport on October 10, 2005. He also stated that there was no record of any similar approved variances in the immediate area. He lastly stated that staff had received a petition with 55 signatures requesting the Board of Adjustment to deny the request.

Peter McGrath stated that he was an Attorney; helping Mr. Winnie with his variance application. He then passed out an information packet to the Board members and the County Attorney. He further stated that after sitting down with Mr. Winnie and looking at his request it appeared to him that the carport was an accessory structure under Section 30.1345 in the Land Development Code. He then referred to the copy he had given to the Board of Section 30.1345 and stated that Mr. Winnie carport met all the criteria for an accessory structure. He also stated that it was not attached to the main structure, it was 10 feet away from the rear property line, which was the minimum requirements. He further stated that at the top of the list of concerns was if a variance request was necessary. He then stated that the Code Enforcement Officer indicated to Mr. Winnie that the structure was properly installed and that it seemed to meet all requirements except for the setback requirements. He then referred to the survey which was a part of the packet he passed out.

Mr. Rozon asked was the carport surveyed with the survey.

Peter McGrath stated no, the carport was added to the survey.

Peter McGrath then stated that if the 30 foot setback applied to the carport, it did not meet that setback. He then stated that the carport is set far back and the visibility of the carport is limited. He then stated that his concern was if the 30 feet setback requirement could be lawfully enforced against an accessory structure. He further stated that he would love to address the issue of why the Board had a petition with 55 signatures, this has to do with another legal matter between the Winnie's and a dispute involving the Wellington Terrace Home Owner's Association, he then stated if the Board wanted to hear some back ground on that case he would be happy to provide it.

Mr. Hattaway asked was it pertinent to the subject of the carport? Mr. Hattaway then stated that the Board of Adjustment was accustomed to having petitions and they weigh them in making their decision, but he didn't want Peter McGrath, to get away from the fact of the matter of the request that was before the Board.

Peter McGrath stated that it was pertinent and he would be brief. He continued by stating that on March 1, 2005, Mr. Winnie was contacted by the Wellington Terrace Homeowner's Association concerning improvements on his property. He further stated that the carport was one of the issues and he told Mr. Winnie he needed approval from his Homeowner's Association, because the carport is a structure that the Association has the right to approve or deny. He then stated that they put together a letter and sent it certified to the Homeowner's Association, which was received by the Association. He further referred to paragraph 2 in the letter stating, please consider this letter to be an application for the Association to approve the following improvements located on my clients' lot and residence located at 1888 Derbyshire Road, vinyl fence; and carport. He then asked the Board to go to the Declaration of Covenants Conditions and Restrictions the second to the last page Section 6 Architectural Control, stating ; in the event that the said Architectural Review Committee or its successors or assigns fail to approve or disapprove such design and location within fifteen (15) days after the same have been submitted to said Architectural Review Committee, such approval will be required and this covenant will be deemed to have been fully complied with.

Mr. Bushrui stated that the Homeowner's Association rules have nothing to do with what the Board of Adjustment does.

Peter McGrath stated that the point he wanted to make was that he believes the Homeowner's Association is trying to use the Board of Adjustment as an instrument to enforce their own covenants.

Mr. Hattaway stated that the Board of Adjustment doesn't do that. He further stated that the Board of Adjustment advises the applicants out of courtesy, if they have a mandatory Homeowner's Association that they should apply to them also.

Peter McGrath stated that the 55 signatures is an organization that is upset because of their failure to act timely in connection with Mr. Winnie's request for approval under their own covenants.

Mr. Winnie stated that there are two (2) different sections of Wellington Terrace and they are before the Board of Adjustment because of an angry Homeowner's Association that have called the Building Department and sent someone out to my property. He further stated that when you pull out of the Subdivision the very first house that you see has a carport and, no one has asked them to remove that structure. He then stated that his carport is very expensive, it is tastefully done and it is not an eyesore. He lastly stated that he would not degrade his neighborhood and he would like the Board to allow him to keep the carport in its current location.

Mark Troum stated that he was one of the neighbors in Mr. Winnie's neighborhood, a member of the Homeowner's Association Board and also on the Architectural Review Board. He further stated that the Homeowner's Association Board and the Architectural Review Board required all request be submitted on their forms.

Mr. Hattaway stated that the Board of Adjustment was very experienced and they wanted to talk about the facts involved in the request before them, which would be if be liked or not liked the idea of the variance request.

Mark Troum then stated that the 55 different signatures that the Board has already received and his made 56 plus he stated he had another letter of opposition to present to the Board. He further stated that there was 83 lots in the entire neighborhood and 57 of the lots were in opposition of the request. He then stated that he looked at the picture of the other carport in the neighborhood and (1) it is behind the fence and (2) it is substantially smaller than the requested carport and (3) I pull out of the neighborhood every day and I have not noticed this alleged carport behind the fence. He then stated that the applicant carport can be seen, it is large and it was not approved. He further stated that carports are not allowed in the neighborhood without approval. He then stated that it was not a matter of

tying to reduce the value of Mr. Winnie home, it is just a matter of something that is not approved.

Steve Waleseh stated that he was one of the neighbors and he then apologized for not having the neighbors put their complete address on the petition. He further stated that he knew the neighbors were not happy with the carport, therefore he wanted to put together something for the Board of Adjustment to inform them of the neighborhood objection.

Peter McGrath stated that this is an Association controversy, with Association generated opposition. He further stated that the application for the carport is appropriate.

Mr. Winnie stated that he wanted to thank the Board of Adjustment for their time. He further stated that he would appreciate any thing the Board could do to help. He then stated that the carport could be moved 20 feet forward, but because it would be an eyesore he didn't want to do that to his neighbors.

Mr. Bushrui made a motion to deny the request.

The motion died for a lack of a second.

Mr. Rozon made a motion to approve the request, stating its location is less intrusive to the neighborhood.

Mr. O'Daniel seconded the request.

The motion failed with a vote of 2-2.

A motion was made to reconsider the request.

Mr. Rozon made a motion to approve the request.

Mr. Bushrui reluctantly seconded the motion to move the meeting along

The motion passed by a (3-1) vote. Mr. Hattaway was in opposition.

Re: Violation - 2ND NOTICE

Dear Wm.Cluff/Neal & Michele Winnie:

The Association has previously notified you of a violation (or violations) of the covenants and restrictions which requires your immediate attention.

Since you have been unable or unwilling to resolve this violation within the time period(s) previously allotted, the Board of Directors has instructed me to send you this final COURTESY NOTICE to advise you that, should you not resolve the violation(s) noted above, or contact us in writing regarding your plans to do so, WITHIN THE NEXT 14 (Fourteen) DAYS or sooner, if stated below, this matter will be referred to the Association's attorney for enforcement.

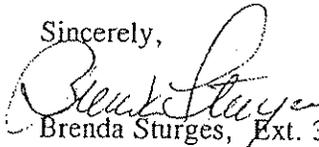

The violation(s) is/are more particularly described as follows:

On January 3, 2005 you were sent three notices for violations at the property. One was for the erection of a vinyl fence without ARC approval; the second was for installation of a carport without ARC approval; and the third was for a motor home parked on the property.

As provided in the governing documents of the Association, the costs of all such enforcement actions, including attorneys' fees and court costs, shall be the responsibility of the offending Owner and may be assessed to your maintenance fee account, resulting in additional costs and fees to you.

This is a serious matter requiring your prompt attention. Your cooperation is expected and appreciated. Should you have any questions regarding this matter, please contact the Community Association Manager at the number or address shown herein.

Sincerely,

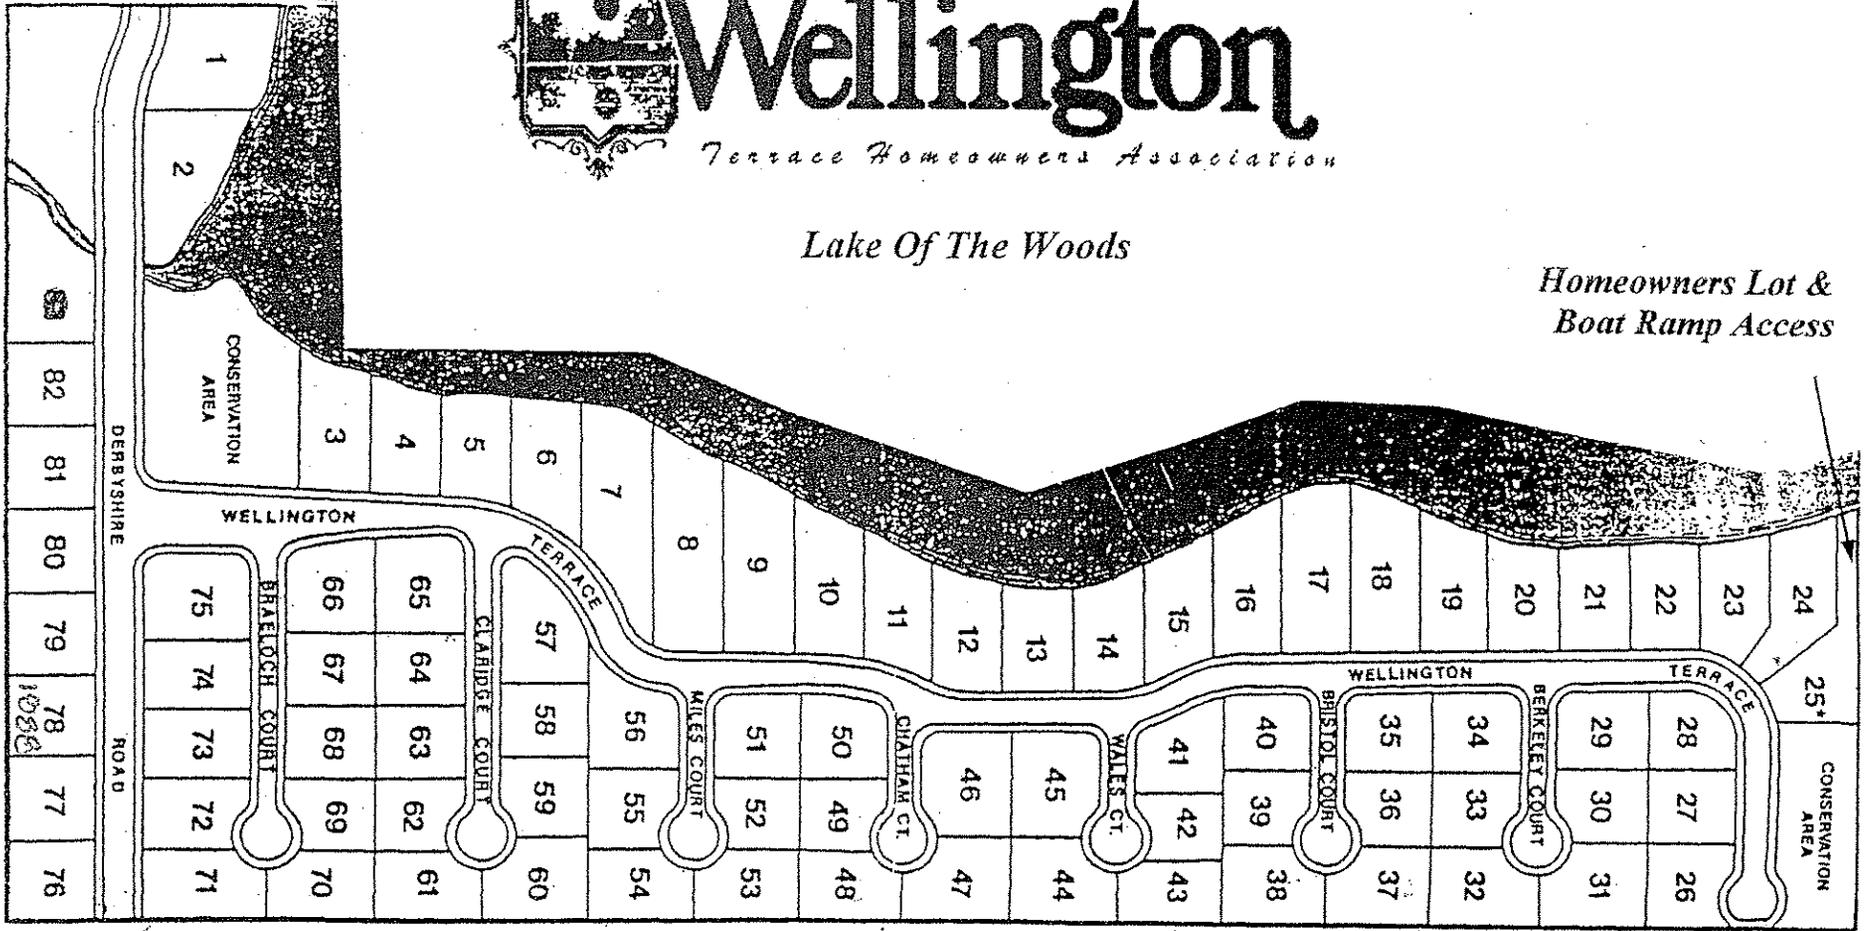

Brenda Sturges, Ext. 301
