More detailed information regarding surrounding properties can be found in the attached Future Land Use, zoning and aerial photo maps.

**SITE ANALYSIS:**

**ENVIRONMENTAL IMPACTS:**

*Floodplain Impacts:*

Based on FIRM map number 12117C0030E, the site is not within a floodplain.

*Wetland Impacts:*

Based on preliminary aerial photo and County wetland map analysis, there appears to be no wetlands on site.

*Endangered and Threatened Wildlife:*

Based on a preliminary analysis, there appear to be no endangered and threatened wildlife on the subject property. A Threatened and Endangered (T&E) Study along with a species of special concern survey will be required prior to final engineering approval.

**PUBLIC FACILITY IMPACTS:**

Rule 9J-5.0055(3)(c)1-2, Florida Administrative Code, requires that adequate public facilities and services be available concurrent with the impacts of development. The applicant has elected to defer Concurrency Review at this time and therefore, has submitted an Affidavit of Concurrency Review Deferral. The applicant is required to undergo Concurrency Review prior to final engineering approval.

The following table depicts the impacts the proposed development has on public facilities:

<b>Public Facility</b>	<b>Existing Zoning (A-1)</b>	<b>Proposed Development (PCD)*</b>	<b>Net Impact</b>
Water (GPD)	350	1,200	850
Sewer (GPD)	300	1,200	900
Traffic (ADT)	10	119	109

\* The Proposed Development is based on a two-story 12,000 sq. ft. office building.

*Utilities:*

The site is located in the Seminole County Northwest Utility Service Area and will be required to connect to public utilities. There is an 8-inch water main and 4-inch force main currently under construction, located approximately 150 feet to the west on Narcissus Avenue. This project is located within the ten-year master plan for reclaimed water, therefore, an irrigation system must be connected to reclaimed water when it becomes available.

Water capacity for new development is limited in the Northwest Service Area. Available capacity for this project will be determined during the Concurrency process.

*Transportation / Traffic:*

The property access is from Narcissus Avenue, which is classified as a local roadway. Narcissus Avenue is not currently programmed to be improved according to the County 5-year Capital Improvement Program. However, through prior development approvals Narcissus Avenue is currently under construction and being brought up to county roadway standards. Dedication of additional right-of-way may be required to accommodate off-site improvements.

*School Impacts:*

The proposed request will not have any impact to schools.

*Public Safety:*

The nearest response unit to the subject property is Station # 34, which is located at 4905 West SR 46. At this time there is capacity to handle the service demands of the

area. The County level-of-service standard for average response time is 5 minutes per Policy PUB 2.1 of the Comprehensive Plan. The first response agreement between the County and the City of Sanford will allow this project to be in compliance with the standard public safety response time.

*Drainage:*

The site is within the Lake Monroe Drainage Basin. On preliminary review, it appears this site does not have a positive, legal outfall and will be required to retain the entire 25 year/24 hour storm event on-site. A detailed drainage analysis will be required at final engineering.

*Parks, Recreation and Open Space:*

In accordance with Section 30.468 (d) of the Land Development Code, the applicant will be required to provide twenty-five (25) percent of the site in common open space. The location of and the amenities associated with the open space will be determined at the time of Final Site Plan Approval.

*Buffers and Sidewalks:*

The following buffering standards contained in the attached Development Order will apply:

- a. Front (South): 10' landscape buffer
- b. Side (East): 5' landscape buffer
- c. Side (West): 15' landscape buffer with canopy trees and a six-foot tall masonry wall
- d. Rear (North): 5' landscape buffer

**APPLICABLE POLICIES:**

**FISCAL IMPACT ANALYSIS:**

This project does not warrant running the County Fiscal Impact Analysis Model.

**SPECIAL DISTRICTS:**

The subject property is not located within any special district or overlay.

**COMPREHENSIVE PLAN (VISION 2020):**

The following policies are applicable with the proposed project:

Policy FLU 2.11: Determination of Compatibility in PUD and PCD Zoning Classifications

Policy FLU 5.9: HIP-TI Permitted Uses and Locational Standards

Policy CIE 3.2: Application to New Development

Policy POT 4.5: Potable Water Connection

Policy SAN 4.4: Sanitary Sewer Connection

Policy PUB 2.1: Public Safety Level-of-Service

**INTERGOVERNMENTAL NOTIFICATION:**

An intergovernmental notice was sent to the City of Sanford on June 14, 2006.

**LETTERS OF SUPPORT OR OPPOSITION:**

At this time, Staff has received no letters of support or opposition.

**STAFF RECOMMENDATION:**

Staff recommends APPROVAL of the request to rezone 1.08 ± acres, located on the north side of Narcissus Avenue east of Elder Road North, from A-1 (Agriculture) to PCD (Planned Commercial Development), to allow a 12,000 sq. ft. two-story office building, subject to the attached Preliminary Site Plan and Development Order.

**PLANNING AND ZONING COMMISSION RECOMMENDATION:**

The Planning and Zoning Commission met on July 12, 2006 and voted 6-0 to recommend APPROVAL of the request to rezone 1.08 ± acres, located on the north side of Narcissus Avenue east of Elder Road North, from A-1 (Agriculture) to PCD (Planned Commercial Development), to allow a 12,000 sq. ft. two-story office building, based on staff findings.
