Adopt the resolution to continue the Jobs Growth Incentive Program and authorize the Chairman to execute.

**BACKGROUND:**

The Board of County Commissioners adopted the Jobs Growth Incentive (JGI) Program in 1995 to support business growth in Seminole County. This program has been successful in attracting target industries and businesses, large and small, to the County by providing incentives to businesses seeking to relocate or expand within the targeted areas. This approach has created new high wage, high value jobs in the County.

The JGI Program is part of the Economic Development Strategic Plan and is in line with the Economic Development Element of the County's Comprehensive Plan.

Summary of the Economic Impact Analysis of the JGI Program;

- The JGI Program has awarded \$5,304,000 in funds
- Established 11,224 total new, relocated or retained jobs
- Capital investment of \$309,527,286 made by award recipients
- Annual benefit derived from property taxes \$4.7 million

Several projects were previously approved by the BCC; those awarded funds are committed for future distribution in the amount of \$2,788,600.
