OVERVIEW

Zoning Request: The applicant, Gayle Marion, requests R-2 zoning for approximately 0.21 acres located on the south side W. 6th Street, west of CR 419, to accommodate a duplex. The subject property currently has an R-3 zoning classification. The land use for the property is HDR (High Density Residential) which allows the proposed R-2 zoning classification.

North of the parcel is W. 6th Street and residential lots zoned R-2 and R-3. West and east of the parcel are residential lots zoned R-2. The residential lots to the immediate west of the parcel are vacant and zoned R-3. The existing R-3 designation allows for one or two story apartment buildings with a maximum density of 13 units per net buildable acre. The requested zoning of R-2 permits one and two family dwellings on a minimum 9,000 square foot lot, while accommodating setbacks and necessary site improvements. The subject parcel is approximately 62 feet wide, and the minimum parcel width in the R-2 district is 75 feet. In order to develop this site with a duplex, the applicant will have to obtain a variance, which will be handled through a separate application.

Existing Land Uses:

	EXISTING ZONING	FUTURE LAND USE
NORTH	W. 6 th Street, R-3 (Multiple-family Dwelling) and R-2 (One- and Two-family Dwelling)	High Density Residential and Medium Density Residential
SOUTH	R-3 (Multiple-family Dwelling)	High Density Residential
EAST	R-3 (Multiple-family Dwelling)	High Density Residential
WEST	R-3 (Multiple-family Dwelling)	High Density Residential

For more detailed information regarding zoning and land use, please refer to the attached map.

SITE ANALYSIS

Facilities and Services:

The proposed zoning is consistent with the adopted future land use designation assigned to the property and does not alter the options or long range strategies for facility improvements or capacity additions included in the Support Documentation to the Seminole County Comprehensive Plan.

Transportation / Traffic:

Access is available to the site from W. 6th Street. The proposed R-2 zoning will allow less density than the current R-3 zoning designation, and will result in fewer traffic impacts.

Compliance with Environmental Regulations:

There are no identified flood prone areas associated with this property. The parcel lies within the Econlockhatchee River Protection Overlay Zoning District. At the time of site development, the property will be subject to the regulations contained in Part 57 of the Seminole County Land Development Regulations.

Compatibility with Surrounding Development:

Currently, the surrounding area has High Density Residential and Medium Density Residential land use designations. The proposed R-2 zoning classification is allowed in either the High or Medium Density Residential land use designations, and therefore, the proposed zoning is compatible with the surrounding area.

STAFF RECOMMENDATION

Staff recommends approval of the requested R-2 zoning classification to accommodate a duplex based on the following findings:

1. The proposed use within the R-2 zoning district would not be detrimental to the character of the area or neighborhood or inconsistent with the trends of development in the area; and
2. The proposed use within the R-2 zoning district would not be incompatible with the concepts of high density residential land use; and
3. The uses within the proposed R-2 zoning district would not have an unduly adverse effect on existing traffic patterns, movements and intensity; and
4. The proposed R-2 zoning district is compatible with the concepts of its future land use designation of High Density Residential.

C. W. 6th Street Chuluota Rezone; Gayle Marion, applicant; approximately 0.21 acre; rezone from R-3 to R-2; located on the south side of W. 6th Street, west of CR 419, Chuluota (Z2003-044).

Commissioner Maloy – District 1
Tina Deater, Senior Planner

Ms. Deater stated that the applicant, Gayle Marion, requests R-2 zoning for approximately 0.21 acres located on the south side W. 6th Street, west of CR 419, for a duplex. The subject property has an R-3 zoning classification. The land use for the property is HDR (High Density Residential) which allows the proposed R-2 zoning classification. Staff visited the site and found several duplexes in the neighborhood. Staff recommends approval of the requested R-2 zoning classification.

Gayle Marion showed a diagram of the neighborhood around the site of the application and some photographs as well. She stated that there were several duplex homes and a triplex in the neighborhood.

No one spoke from the audience on the request.

Commissioner Harris made a motion to recommend approval of the item as requested.

Commissioner Bates seconded the motion.

The motion passed unanimously (6 – 0).
