ECONOMIC IMPACT STATEMENT

DATE: December 10, 2002

DEPT./DIVISION: Fiscal Services

CONTACT PERSON: Cindy Hall

EXTENSION: 7172

DESCRIBE PROJECT/PROPOSAL:

Restructuring the assessment calculation method for the street lighting program from like operating cost groupings ("levels") to a per district basis. Also creating twelve (12) new street lighting sub-districts including the merge of three (3) existing districts into one.

DESCRIBE THE DIRECT ECONOMIC IMPACT OF THE PROJECT/ PROPOSAL UPON THE OPERATION OF THE COUNTY:

Revising the current assessment calculation method will necessitate computer programming modifications as the volume of calculations will be significantly increased. It is anticipated that all required software applications can be handled internal to the county without purchase of software product or services. Impact to the Information Services Division will be minimal at less than 40 hours in total.

The ordinance will also add twelve (12) sub-districts adjusting the total number of districts to 365. The major impact on the Department of Fiscal Services is the time involved in processing applications, preparing documents for the annual public hearing, and notifying property owners of the proposed sub-districts of the public hearing.

The time needed to process applications can vary widely depending on the size of the sub-district and whether or not a petition process is required. Generally speaking, a developer application can take as little as 5-10 hours to process while a homeowner application with a petition process can involve 30-50 hours of meetings, phone calls, research, and computer time.

Currently, 100% of one employee's time is devoted to the street lighting program which includes budgeting, revenue and expenditure tracking, and monitoring equipment inventory. Additionally, approximately 25% of other MSBU staff's time is devoted to the street lighting program.

DESCRIBE THE DIRECT ECONOMIC IMPACT OF THE PROJECT/ PROPOSAL UPON THE PROPERTY OWNERS/TAX PAYERS/CITIZENS WHO ARE EXPECTED TO BE AFFECTED:

The ordinance will modify the current assessment calculation method to allow for more exact and equitable distribution of operating expenses. This impacts the property owners as each individual district will now contribute towards its specific operating costs rather than sharing with other districts having like costs as done with the level pricing system.

Annual assessments of the twelve (12) new districts will range from \$25.00 per lot to \$215.00 per lot at FY 2002/03 rates.

IDENTIFY ANY POTENTIAL INDIRECT ECONOMIC IMPACTS, POSITIVE OR NEGATIVE WHICH MIGHT OCCUR AS A RESULT OF THE PROJECT PROPOSAL:

Positive impacts are realized in the street lighting districts in relationship to safety and more equitable assessment distribution.

WHEREAS, section 125.01(q), Florida Statutes authorizes the formation of municipal service benefit unit for street lighting purposes; and

WHEREAS, said consolidated street lighting district was heretofore governed under the terms of Ordinance 2001-49 wherein the annual special assessments were structured on a system of multiple tiers or price levels depending upon the grade of equipment supplied and level of services rendered; and

WHEREAS, the County has determined that a restructuring of the annual special assessments on a subdistrict basis instead of a service tier basis will better reflect the actual cost of providing the street lighting services in terms of the benefits to the properties within each subdistrict; and

WHEREAS, it is necessary to designate the existing subdistricts and to create new subdistricts within the consolidated street lighting district,

NOW THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF SEMINOLE COUNTY, FLORIDA:

Undeveloped, nonresidential, noncommercial parcels shall be treated as one (1) lot for purposes of assessment levy until such time as said parcels are platted or approved for development, at which time the subject parcels shall be assessed on the number of lots platted and approved for residential or commercial use in the manner described above.

Said District shall consist of the subdistricts to include those newly created subdistricts described in Section 8 hereof and existing subdistricts described in Section 9 hereof.

Section 5. Governance of the District. The District shall be governed by the Board of County Commissioners of Seminole County. The Board shall have the following powers and duties.

(a) Provide for the collection and disbursement by the County of such funds as may be necessary to pay the expenses of operation and maintenance of improvements within the District.

(b) To provide for or contract for the construction and maintenance of street lighting equipment within the District, including poles, wires, conduits, lights and all appurtenances necessary for such street lighting.

(c) To buy, lease, or rent any and all equipment, improvements, and facilities which may be necessary for the purposes and intents of this Ordinance.

(d) To levy a special assessment uniformly and equally upon each and every lot within each subdistrict to defray the costs of the District.

Section 6. Fiscal Procedures. The Board of County Commissioners may by proper resolution establish rules and regulations regarding the fiscal operation of the District, and may set up reserve items in the budget of the District in excess of the District's estimated expenditures for the ensuing fiscal year for the purpose of creating reasonable reserves for the purchase of equipment, improvements for the District and/or to compensate for increased utility costs.

Section 7. Special Assessment Procedures.

(a) It is hereby declared and determined that the establishment of the Seminole County Consolidated Street Lighting District will confer special benefits upon the lands within the District and the subdistricts therein. Special assessments may be assessed and levied by the County to defray the costs of operation and maintenance and administration of said District and subdistricts. Such assessments shall be determined, levied and collected on each Lot within each particular Subdistrict on the basis of a reasonable allocation of the costs of providing the street lighting infrastructure and services in relation to the benefits on the lots within said subdistrict.

(b) A special assessment for each subdistrict shall be derived annually by dividing the total annual budgeted costs of each subdistrict by the number of taxable lots in that subdistrict and assigning that cost to each and every taxable lot in the subdistrict. Said special assessments shall constitute a lien upon the lands assessed. Pending collection by the County of such special assessments, as provided hereinafter, the County may spend from its Street Lighting District Fund such sums as may be necessary to operate, maintain and administer the District hereby created, and the County will be reimbursed to such extent at such time as such assessments have been collected.

(c) All special assessments as provided herein shall be assessed and collected by the uniform method adopted by the Seminole County Board of County Commissioners pursuant to Section 197.3632, Florida Statutes.

(d) The Tax Collector of Seminole County shall be entitled to receive a commission for the collection of said special assessment at the rate set forth in Section 192.091(2)(b), Florida Statutes or its successor.
