GENERAL INFORMATION	Applicant:	Lorenzo Polk
	Location:	Alexander Avenue (Lot 22)
	Zoning:	R-1
	Subdivision:	Lockharts Subdivision
BACKGROUND / REQUEST	<ul style="list-style-type: none"> • The applicant proposes to construct a single family home on a lot not meeting the minimum lot size and building width requirements of the R-1 zoning. • The lot was platted in September of 1924, which is part of the Lockharts Subdivision of Sanford in which the 	

	<p>dimensions of the lot are 51' x 100'.</p> <ul style="list-style-type: none">• The applicant proposes to construct a single story, one car garage, home that will be approximately 1,508 square feet (26' x 58').• The Board of Adjustment has approved similar variances on similar properties after the demonstration of hardships consistent with the variance criteria identified in section 30.43(b)(3) VARIANCES.
STAFF FINDINGS	<p>The applicant has satisfied the criteria for the grant of a variance. Staff has determined that:</p> <ul style="list-style-type: none">• The subject lot is a parcel of record as of 1924. Special conditions or circumstances exist, which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures or building in the same zoning district.• Policy FLU 3.2, adopted on September 11, 1991, states the county shall reduce uses that are inconsistent with community character by requiring the combining of lots. Lockharts Subdivision platted lots have been developed into single family lots without the requirement of combinations therefore the request would not be inconsistent with the community character.• Special conditions and circumstances did not result from the actions of the applicant.• The granting of the variance requested would not confer on the applicant special privileges that are denied by Chapter 30 to other lands, buildings, or structures in the same zoning district. There are a number of lots that do not meet the minimum standard requirements of the R-1 (Single Family Dwelling District).• The literal interpretation of the provisions of Chapter 30 would deprive the applicant of rights commonly enjoyed by other properties in the same zoning classification. There has been other platted lots of same statue concerning lot size and building width that has requested and been approved for variances prior to this applicant.• The variance requested is the minimum variance that will make possible reasonable use of the land, building or structure. The platted lot meets both side yard setbacks minimum requirements of the R-1

	<p>(Single Family Dwelling District).</p> <ul style="list-style-type: none">• The applicant would not retain reasonable use of the land, building or structure without the granting of the variance. The platted lot could not be developed unless the variances requested are granted for the applicant.• The grant of the variance would be in harmony with the general intent of Chapter 30. The requested variance is in harmony with the other regulations contained in chapter 30.
<p>STAFF RECOMMENDATION</p>	<ul style="list-style-type: none">• Based on the stated findings, staff recommends approval of the request per the following conditions of approval:<ul style="list-style-type: none">• Any variance granted shall apply only to the lot and the proposed single family home as depicted on the attached site plan; and• Any additional condition(s) deemed appropriate by the board, based on information presented at the public hearing.

Fee: \$150.00 plus \$50.00 for each additional variance
