RE: Special Exception for Primrose School
5700 S. Sylvan Lake Drive
BS2008-18

At the January 2009 Board of Adjustment hearing the applicant was granted a continuance, at their request, until March 23, 2009 in order to complete a study demonstrating consistency with the Seminole County Comprehensive Plan policies for the Wekiva River Protection Area. At this date, their report addressing these requirements is under review and staff is requesting that this item be continued until April 27, 2009 in order to allow sufficient review time.
