LAND PLANNING AGENCY / PLANNING AND ZONING COMMISSION  
AGENDA MEMORANDUM**

**SUBJECT:** Tradition at Red Bug, Large Scale Land Use Amendment from Low Density Residential (LDR) to Planned Development (PD); and Rezone from A-1 (Agriculture District) to PUD (Planned Unit Development District); (Javier E. Omana, applicant).

**DEPARTMENT:** Planning & Development **DIVISION:** Planning

**AUTHORIZED BY:** Matthew West **CONTACT:** Jeff Hopper EXT. 7431

Agenda Date 04/06/05 Regular  Work Session  Briefing   
Special Hearing – 6:00  Public Hearing – 7:00

**MOTION/RECOMMENDATION:**

1. Recommend APPROVAL of the request for Large Scale Land Use Amendment from LDR to PD and APPROVAL of a rezone from A-1 (Agriculture District) to PUD (Planned Unit Development District) on approximately 44 acres located east of Mikler Road and south of Red Bug Lake Road at Slavia Road intersection, (Javier E. Omana, applicant); or
2. Recommend DENIAL of the request for Large Scale Land Use Amendment from LDR to PD and rezone from A-1 (Agriculture District) to PUD (Planned Unit Development District), per staff findings, on approximately 44 acres located east of Mikler Road and south of Red Bug Lake Road at Slavia Road intersection (Javier E. Omana, applicant); or
3. CONTINUE the public hearing until a time and date certain.

(District 1 – Dallari)

(Jeff Hopper, Senior Planner)

**BACKGROUND:**

The applicant proposes a mixed commercial and residential development on a 44-acre site now in the Low Density Residential (LDR) future land use designation and zoned A-1 (Agriculture District). If approved, the current request would amend a prior proposal by the same applicant for a Planned Commercial Development (PCD), previously known as "Mikler Shoppes". That request, consisting primarily of retail and office uses, received extensive review and

evaluation by staff, neighborhood homeowners groups, the Land Planning Agency, the Board of County Commissioners, and the developer. It was transmitted to the Department of Community Affairs (DCA) for review and found to be in compliance with state growth management regulations. However, upon returning to the Board of County Commissioners for final adoption, the proposal was continued to subsequent public hearings for further revisions to reduce commercial intensity and increase the residential component of the proposal.

The Preliminary Master Plan under consideration at this time, hereafter referred to as "Tradition at Red Bug", substantially differs from the original proposal. The 140,000 s.f. of commercial and 54,000 s.f. of office uses proposed as "Mikler Shoppes" have been reduced to a maximum of 124,650 s.f. of commercial on 20.88 acres. Of particular concern within the commercial part of the development is elimination of the previous project's limit of 40,000 square feet for any individual commercial building. This limit was intended to prevent development of a "big box" retailer such as was requested for this site in 2003. A village concept was encouraged instead. The Wal-Mart proposed at that time would have been more than 200,000 s.f. in size. In the new submittal, maximum building size for "Anchor A", the largest structure on the site, is shown as 95,617 s.f.

While the original plan showed 50 multi-family units on the upper floors of commercial/office structures, the new plan proposes 250 residential units, separate from the commercial structures, on 25.86 acres for a gross residential density of 9.67 dwelling units per acre. The plan does not provide a net density figure for the development. Since substantial amounts of the site are wetlands and vehicle use areas, there will be a significant difference between gross and net density as calculated in accordance with the Land Development Code. Further, the applicant has represented to staff that the residential component of the development was to be configured for fee simple ownership, while apartments are listed as a permitted use on the current submittal. These important discrepancies should be resolved.

The proposed arrangement of land uses on the site could be made compatible with surrounding land uses with the application of increased setbacks, buffering and building height limitations required by the Vision 2020 Plan, but the proposal does not appear to meet basic concerns about transitioning development intensities. Proposed commercial development is confined to the northeast portion of the site, adjacent to Slavia and Red Bug Lake Roads. Proposed residential uses are concentrated to the southwest of the property, in proximity to existing single family developments at densities no greater than 4 units per acre. A density in excess of 10 units per net buildable acre would make the project equivalent to the High Density Residential (HDR) future land use designation. The difference in development intensity between the proposed and abutting residential is relatively high, and the proposed plan fails to adequately address this issue.

The new development concept or preliminary master plan for "The Tradition at Red Bug" is a departure from the concept negotiated and approved for "Mikler Shoppes". The Board of County Commissioners expressed to the applicant a desire to see a mixed

use project with a village concept, as opposed to a conventional, suburban shopping center. The newest proposal does not address that desire from a design standpoint. The new proposal could also raise issues that were not considered in earlier discussions, such as potable water consumption and school capacities associated with the newly proposed residential development. Staff's previous recommendation for approval was conditioned upon a wide range of development criteria, including use restrictions, signage and landscaping, building sizes, setbacks and architectural standards.

While the new plan retains the original permitted or conditional C-1 (Commercial District) uses as a component of the proposed PUD zoning, proposed buffers along the western and southern edges of the property have been significantly reduced and the proposed village concept eliminated. Both of these features were intended to further the compatibility of the proposed development with abutting single-family uses to the southwest and effectively provide a transition between those uses and the higher intensity commercial development along Red Bug Lake Road. To clarify the differences between the two proposals, a matrix is provided in the body of this report.

#### **STAFF RECOMMENDATION:**

Based upon the newly submitted preliminary master plan for "Tradition at Red Bug", staff recommends DENIAL of the request for the reasons stated in the staff report. If the Land Planning Agency wishes to recommend approval of the request, staff recommends that the following requirements be addressed and included in the Preliminary Master Plan and Development Order:

- a. Dwelling units shall be configured for fee simple ownership.
- b. Density within the residential portion of the development shall not exceed 10 dwelling units per net buildable acre.
- c. Parking spaces shall be a minimum of 10' x 20'.
- d. Parking shall be provided at a ratio of 1 space per 250 square feet for the proposed multi-tenant design.
- e. Visitor parking for the residential area shall be provided at a minimum rate of 1 space per 3 units.
- f. Active / passive setbacks and buffers shall apply along the western and southern edges of the property.
- g. No structures shall be permitted within 50 feet of any public right-of-way.
- h. Allowable uses shall be those listed as permitted or conditional uses in C-1, except for gasoline pumps, hospitals and nursing homes. Alcoholic beverage establishments shall be allowed by special exception.
- i. Commercial uses shall not exceed 125,000 s.f. and no individual building shall exceed 40,000 s.f.
- j. Mechanical units within the commercial tract shall be located and/or screened so as not to be visible from Red Bug Lake Road or adjoining single family development.
- k. A minimum of 25 percent of the project area must be designated as open space per the requirements of the Land Development Code. Wet retention

areas to be counted as open space shall be amenitized in accordance with the design criteria of Section 30.1344 of the Land Development Code. The applicant shall demonstrate on the PUD final master plan that the open space requirements have been met, with final landscaping and amenities to be approved by the Board of County Commissioners as part of the final site plan.

- l. The developer shall provide a pedestrian circulation system giving access to all portions of the development as well as connecting to existing sidewalks outside the development, including a connection to Mikler Road on the south side of property.
- m. Building heights shall be limited to 40 feet for structures within 300 feet of Red Bug Lake and Slavia Roads, 35 feet for all others.
- n. Drive-thru businesses shall be prohibited, with the exception of banks, pharmacies and dry cleaners.
- o. No motorized water craft shall be permitted in the water feature.
- p. All architectural and landscape/hardscape designs shall be submitted to and approved by the Board of County Commissioners as part of the final master plan. These designs shall have a village theme.
- q. Hours of operation within the commercial tract shall be 7:00 a.m. – 11:00 p.m. Sunday through Thursday, and 7:00 a.m. – 12:00 a.m. Friday and Saturday.
- r. Signage will comply with the Lake Mary Boulevard Gateway Corridor Overlay standards.
- s. The developer shall provide a drainage easement to Seminole County across the water feature and associated retention facilities.
- t. A historic resource survey of the subject property shall be required prior to Final Master Plan approval.

The presence of any wetlands and/or flood-prone areas is determined on a site by site basis.  
 Boundary adjustments may be made based upon more definitive on-site information obtained during the development review process.

Staff recommends denial of the request, based on findings stated elsewhere in this report.

### LDR to Planned Development (PD)

Amendment  
(Z2004-013,

1. **Property Owners:** Janet L. Stone, Trustee  
Robert T. & Becky Navidomskis  
Joseph I. & Sheri T. Denberg
  
2. **Tax Parcel Number:** 16-21-31-5CA-0000-0800

16-21-31-5CA-0000-0680  
16-21-31-5CA-0000-0830

3. **Development Trends:** The subject property lies in a transitional area between high intensity commercial and residential uses to the east and lower density residential uses to the southwest. The Oviedo Marketplace and associated "big box" retailers have formed a major node of commercial use at the intersection of Red Bug Lake Road and SR 417. From this location, commercial uses are developing westward along Red Bug Lake Road, resulting in infill commercial uses such as the Oviedo Crossings PUD, located at the intersection of Red Bug Lake Road and Slavia Road. Beyond this development lie two PCD parcels at the intersection of Red Bug Lake Road and Mikler Road, an assisted living facility and an abandoned (golf) driving range. Existing and approved development to the west of Mikler is exclusively single family in the R-1A, R-1AA, R-1AAA and PUD districts.

## SITE DESCRIPTION

1. **EXISTING AND PERMITTED USES:** The future land use designation of Low Density Residential (LDR), currently assigned to the subject property, permits single family residential use to a maximum of 4 dwelling units per net buildable acre.

## **COMPREHENSIVE PLAN CONSISTENCY**

**2. PLAN PROGRAMS** - Plan policies address the continuance, expansion and initiation of new government service and facility programs, including, but not limited to, capital facility construction. Each application for a land use designation amendment will include a description and evaluation of any Plan programs (such as the effect on the timing/financing of these programs) that will be affected by the amendment if approved.

**Summary of Program Impacts:** The proposed amendment does not alter the options or long-range strategies for facility improvements or capacity additions included in the Support Documentation to the Vision 2020 Plan. The amendment request would not be in conflict with the Metroplan Orlando Plan or the Florida Department of Transportation's 5-Year Plan (Transportation Policy 14.1).

A. **Traffic Circulation - Consistency with Future Land Use Element:** *In terms of all development proposals, the County shall impose a linkage between the Future Land Use Element and the Transportation Element and all land development activities shall be consistent with the adopted Future Land Use Element (Transportation Policy 2.1).*

Primary access to the subject property is from Red Bug Lake Road, a 4-lane road classified as a Minor Arterial. Traffic count data from 2003 indicate an operating level of service "C" on this segment of the road. The adopted Level of Service standard is "E".

**B. Water and Sewer Service – Adopted Potable Water and Sanitary Sewer Service Area Maps:** *Exhibits POT-1 and SAN-1 are the water and sewer service area maps for Seminole County*

The subject property is within the Seminole County water and sewer service areas. Staff has determined that the “Tradition at Red Bug” proposal would require an estimated 88,330 gallons per day (GPD) of water, which is a 445 percent increase from the 19,850 GPD calculated for Mikler Shoppes.

**C. Public Safety – Adopted Level of Service:** *The County shall maintain adopted levels of service for fire protection and rescue...as an average response time of five minutes (Policy PUB 2.1).*

The property is served by the Seminole County EMS/Fire Station #27. Response time to the site is less than 5 minutes, which meets the County’s average response time standard of 5 minutes.

**3. REGULATIONS -** The policies of the Plan also contain general regulatory guidelines and requirements for managing growth and protecting the environment. These guidelines will be used to evaluate the overall consistency of the land use amendment with the Vision 2020 Plan, but are not applied in detail at this stage.

**A. Preliminary Development Orders: Capacity Determination:** *For preliminary development orders and for final development orders under which no development activity impacting public facilities may ensue, the capacity of Category I and Category III public facilities shall be determined as follows...No rights to obtain final development orders under which development activity impacting public facilities may ensue, or to obtain development permits, nor any other rights to develop the subject property shall be deemed to have been granted or implied by the County's approval of the development order without a determination having previously been made that the capacity of public facilities will be available in accordance with law (Policy IMP 2.4).*

A review of the availability of public facilities to serve this property indicates that there would be adequate facilities to serve this area, or that such facilities could be made available, and that the proposed Plan amendment would create no adverse impacts to public facilities. However, the applicant has elected to defer concurrency at this time, and final development rights shall be dependent upon the future availability of public facilities at the time of development.

**B. Flood Plain and Wetlands Areas - Flood Plain Protection and Wetlands Protection:** *The County shall implement the Conservation land use designation through the regulation of development consistent with the Flood Prone (FP-1) and Wetlands (W-1) Overlay Zoning classifications...(Policy FLU 1.2 and 1.3).*

The site contains a significant amount wetlands or flood prone areas, but can be developed within the requirements of the Vision 2020 Plan and Land Development Code.

C. **Protection of Endangered and Threatened Wildlife:** *The County shall continue to require, as part of the Development Review Process, proposed development to coordinate those processes with all appropriate agencies and comply with the US Fish and Wildlife Service and the Florida Fish and Wildlife Conservation Commission Rules as well as other applicable Federal and State Laws regarding protection of endangered and threatened wildlife prior to development approval (Conservation Policy 3.13).*

A threatened and endangered species report shall be required prior to final engineering approval for any proposed development on the subject property.

**4. DEVELOPMENT POLICIES** - Additional criteria and standards are also included in the Plan that describes when, where and how development is to occur. Plan development policies will be used to evaluate the appropriateness of the use, intensity, location, and timing of the proposed amendment.

A. **Compatibility:** When the County's Future Land Use Map (FLUM) was developed in 1987, land use compatibility issues were evaluated and ultimately defined through a community meeting/hearing process that involved substantial public comment and input. When amendments are proposed to the FLUM, however, staff makes an initial evaluation of compatibility, prior to public input and comment, based upon a set of professional standards that include, but are not limited to criteria such as: (a) long standing community development patterns; (b) previous policy direction from the Board of County Commissioners; (c) other planning principles articulated in the Vision 2020 Plan (e.g., appropriate transitioning of land uses, protection of neighborhoods, protection of the environment, protection of private property rights, no creation of new strip commercial developments through plan amendments, etc.).

Based upon an initial evaluation, the proposed PD land use, with the attendant PUD Preliminary Master Plan, would not be compatible with the LDR land use designation on adjoining properties to the southwest. With the placement of retail uses in the northeast portion of the site and multi-family units to the southwest, the proposal does create a transition of intensity between the LDR properties to the west and large areas of commercial and other nonresidential development along Red Bug Lake Road near the SR 417 interchange. However, the probable density of the proposed multi-family area of the development is greater than 10 units per net buildable acre, as compared to net densities of 4 units per acre or less on nearby LDR properties. Under the Vision 2020 Plan, a density change of this magnitude between neighboring properties can be accommodated with special design features such as sufficient buffers, limited building heights and architectural controls. Such design features are not part of the current request, and it is staff's opinion that the compatibility issue has not been sufficiently addressed in the new proposal.

The previous application, "Mikler Shoppes", proposed a number of design considerations based upon extensive review and evaluation by staff, neighborhood homeowners groups, the Land Planning Agency, the Board of County Commissioners, and the developer. Among these was a major water feature creating a buffer several hundred feet wide along the south edge of the subject property. Also proposed were negotiated setbacks, landscape buffering and architectural designs deemed to be compatible with residential development and thereby intended to provide a transition between development intensities.

The current proposal seeks to reduce the previously approved setbacks (and associated buffers) along Mikler Road from 500 feet to 300 feet along the western edge of the property and from 500 feet to 25 feet along the southern edge. The proposal further seeks to eliminate the application of a village theme to the overall development concept, as approved in the previous "Mikler Shoppes" plan. Also, the amount of proposed commercial space has been reduced in the current plan by 11 percent, and the number of proposed residential units has increased by 500 percent. Consequently, the current plan depicts a (gross) residential density of 9.66 dwelling units per acre with apartments described as permitted uses, as opposed to the fee simple ownership of the previous plan. When wetlands and vehicle use areas are deducted, the resulting net residential density appears to exceed 10 dwelling units per acre, which is consistent with the High Density Residential future land use category.

As compared to the Mikler Shoppes plan, the new proposal reduces setbacks and associated buffers, eliminates a residentially compatible design (including the village concept and fee simple ownership previously agreed to by the applicant), and increases development intensity over a larger portion of the site. The effect of these changes would be to create a less effective transition from low density residential on the southwest to the commercial character of Red Bug Lake Road than would have been accomplished in the previous plan. The applicant has not achieved the compatibility sought by staff and the Board as discussed at previous hearings and meetings.

Applicable Plan policies include, but are not limited to, the following:

**Transitional Land Uses:** *The County shall evaluate plan amendments to insure that transitional land uses are provided as a buffer between residential and non-residential uses, between varying intensities of residential uses, and in managing the redevelopment of areas no longer appropriate as viable residential areas. "Exhibit FLU: Appropriate Transitional Land Uses" is to be used in determining appropriate transitional uses. (Policy FLU 2.5)*

Although the applicant has requested a Planned Development (PD) land use designation, the proposed development corresponds generally to the Commercial and High Density Residential (HDR) future land use designations. "Exhibit FLU: Appropriate Transitional Land Uses" indicates that HDR can be a compatible transitional use with sensitive site design such as transitioning lot sizes, sufficient

buffers, limited building heights, architectural controls, and limited abutment of passive unobtrusive uses (e.g., loading areas, lighting, parking areas, etc.) to residential areas. This transition has not been adequately addressed.

Other applicable plan policies include:

*FLU 2.1 Subdivision Standards.*

*FLU 2.11 Determination of Compatibility in the PUD Zoning Classification*

*FLU 5.5: Water and Sewer Service Expansion*

*PD Future Land Use Definition*

**B. Concurrency Review - Application to New Development:** *For purposes of approving new development subsequent to adoption of this Comprehensive Plan, all adopted public facilities level of service standards and schedules of capital improvements...shall be applied and evaluated...consistent with policies of the Implementation Element... (Capital Improvements Policy 3.2).*

This policy provides for the adoption of level of service (LOS) standards for public facilities and requires that final development orders be issued only if public facilities meeting the adopted LOS are available or will be available concurrent with the development. Additionally, preliminary development orders shall only be issued with the condition that no rights to obtain final development orders or development permits, or any other rights to develop the subject property are granted or implied by the County's approval of the preliminary development order. The applicant has elected to defer concurrency review and the site will have to demonstrate concurrency compliance at the time of final engineering.

### **STAFF RECOMMENDATION:**

Based upon the newly submitted preliminary master plan for "Tradition at Red Bug", staff recommends DENIAL of the request for the reasons stated in the staff report. If the Land Planning Agency wishes to recommend approval of the request, staff recommends that the following requirements be addressed and included in the Preliminary Master Plan and Development Order:

- a. Dwelling units shall be configured for fee simple ownership.
- b. Density within the residential portion of the development shall not exceed 10 dwelling units per net buildable acre.
- c. Parking spaces shall be a minimum of 10' x 20'.
- d. Parking shall be provided at a ratio of 1 space per 250 square feet for the proposed multi-tenant design.
- e. Visitor parking for the residential area shall be provided at a minimum rate of 1 space per 3 units.
- f. Active / passive setbacks and buffers shall apply along the western and southern edges of the property.
- g. No structures shall be permitted within 50 feet of any public right-of-way.

- h. Allowable uses shall be those listed as permitted or conditional uses in C-1, except for gasoline pumps, hospitals and nursing homes. Alcoholic beverage establishments shall be allowed by special exception.
- i. Commercial uses shall not exceed 125,000 s.f. and no individual building shall exceed 40,000 s.f.
- j. Mechanical units within the commercial tract shall be located and/or screened so as not to be visible from Red Bug Lake Road or adjoining single family development.
- k. A minimum of 25 percent of the project area must be designated as open space per the requirements of the Land Development Code. Wet retention areas to be counted as open space shall be amenitized in accordance with the design criteria of Section 30.1344 of the Land Development Code. The applicant shall demonstrate on the PUD final master plan that the open space requirements have been met, with final landscaping and amenities to be approved by the Board of County Commissioners as part of the final master plan.
- l. The developer shall provide a pedestrian circulation system giving access to all portions of the development as well as connecting to existing sidewalks outside the development, including a connection to Mikler Road on the south side of property.
- m. Building heights shall be limited to 40 feet for structures within 300 feet of Red Bug Lake and Slavia Roads, 35 feet for all others.
- n. Drive-thru businesses shall be prohibited, with the exception of banks, pharmacies and dry cleaners.
- o. No motorized water craft shall be permitted in the water feature.
- p. All architectural and landscape/hardscape designs shall be submitted to and approved by the Board of County Commissioners as part of the final master plan. These designs shall have a village theme.
- q. Hours of operation within the commercial tract shall be 7:00 a.m. – 11:00 p.m. Sunday through Thursday, and 7:00 a.m. – 12:00 a.m. Friday and Saturday.
- r. Signage will comply with the Lake Mary Boulevard Gateway Corridor Overlay standards.
- s. The developer shall provide a drainage easement to Seminole County across the water feature and associated retention facilities.
- t. A historic resource survey of the subject property shall be required prior to Final Master Plan approval.

**SEMINOLE COUNTY DEVELOPMENT  
ORDER**

On May 10, 2005, Seminole County issued this Development Order relating to and touching and concerning the following described property:

Legal description attached as Exhibit A.

(The aforescribed legal description has been provided to Seminole County by the owner of the aforescribed property.)

**FINDINGS OF FACT**

**Property Owners:** JANET L. STONE, TRUSTEE  
JOSEPH I. & SHERI T. DENBERG  
ROBERT T. & BECKY A. NAVIDOMSKIS

**Project Name:** TRADITION AT RED BUG PUD (aka "MIKLER SHOPPES")

**Requested Development Approval:** Large Scale Land Use Amendment from Low Density Residential (LDR) to Planned Development (PD) and rezoning from A-1 (Agriculture) to PUD (Planned Unit Development)

The Development Approval sought is consistent with the Seminole County Comprehensive Plan and will be developed consistent with and in compliance to applicable land development regulations and all other applicable regulations and ordinances.

The owner of the property has expressly agreed to be bound by and subject to the development conditions and commitments stated below and has covenanted and agreed to have such conditions and commitments run with, follow and perpetually burden the aforescribed property.

Prepared by: JEFF HOPPER  
1101 East First Street  
Sanford, Florida 32771

**NOW, THEREFORE, IT IS ORDERED AND AGREED THAT:**

(1) The aforementioned application for development approval is **GRANTED**.

(2) All development shall fully comply with all of the codes and ordinances in effect in Seminole County at the time of issuance of permits including all impact fee ordinances.

(3) The conditions upon this development approval and the commitments made as to this development approval, all of which have been accepted by and agreed to by the owner of the property are as follows:

- a. Dwelling units shall be configured for fee simple ownership.
- b. Density within the residential portion of the development shall not exceed 10 dwelling units per net buildable acre.
- c. Parking spaces shall be a minimum of 10' x 20'.
- d. Parking shall be provided at a ratio of 1 space per 250 square feet for the proposed multi-tenant design.
- e. Visitor parking for the residential area shall be provided at a minimum rate of 1 space per 3 units.
- f. Active / passive setbacks and buffers shall apply along the western and southern edges of the property.
- g. No structures shall be permitted within 50 feet of any public right-of-way.
- h. Allowable uses shall be those listed as permitted or conditional uses in C-1, except for gasoline pumps, hospitals and nursing homes. Alcoholic beverage establishments shall be allowed by special exception.
- i. Commercial uses shall not exceed 125,000 s.f. and no individual building shall exceed 40,000 s.f.
- j. Mechanical units within the commercial tract shall be located and/or screened so as not to be visible from Red Bug Lake Road or adjoining single family development.
- k. A minimum of 25 percent of the project area must be designated as open space per the requirements of the Land Development Code. Wet retention areas to be counted as open space shall be amenitized in accordance with the design criteria of Section 30.1344 of the Land Development Code. The applicant shall demonstrate on the PUD final master plan that the open space requirements have been met, with final landscaping and amenities to be approved by the Board of County Commissioners as part of the final master plan.
- l. The developer shall provide a pedestrian circulation system giving access to all portions of the development as well as connecting to existing sidewalks outside the development, including a connection to Mikler Road on the south side of property.

- m. Building heights shall be limited to 40 feet for structures within 300 feet of Red Bug Lake and Slavia Roads, 35 feet for all others.
- n. Drive-thru businesses shall be prohibited, with the exception of banks, pharmacies and dry cleaners.
- o. No motorized water craft shall be permitted in the water feature.
- p. All architectural and landscape/hardscape designs shall be submitted to and approved by the Board of County Commissioners as part of the final master plan. These designs shall have a village theme.
