The R-1AA (Single-family Dwelling) district requires a minimum lot size of 11,700 square feet and a minimum width at the building line of 90 feet. The Future Land Use designation of the subject property is Low Density Residential (LDR) which allows the requested zoning district. The subject property is currently assigned the A-1 zoning classification. This request is to rezone the property to the R-1AA zoning classification, in order to subdivide the property in the future.

The Seminole County Land Development Code (LDC) requires the application of the Weighted Method for Determining Single-family Residential Compatibility in the Low Density Residential Future Land Use designation. Staff conducted the lot size compatibility analysis, as required by Section 30.1383 of the Land Development Code and determined that the analysis supports the requested R-1AA zoning classification.

STAFF RECOMMENDATION:

Staff recommends approval of the request to rezone 2.31 ± acres, located approximately ¼ mile north of the intersection of Grand Road and Howell Branch Road, from A-1 (Agriculture) to R-1AA (Single-Family Dwelling).

COMPATIBILITY WITH SURROUNDING PROPERTIES

The surrounding area has the Low Density Residential Future Land Use designation and is assigned the A-1, PUD, R-1, and R-1A zoning classifications. The adjacent PUD developments to the east and west of this parcel require minimum lot sizes of 6,900 and 9,000 square feet. The proposed R-1AA zoning district requires a minimum lot size of 11,700 square feet and a minimum width at the building line of 90 feet. The proposed rezone will provide for a more diverse mixture of compatible low intensity residential zoning classifications in an area which is comprised of single-family home subdivisions.

SITE ANALYSIS:

ENVIRONMENTAL IMPACTS

Floodplain Impacts:

Based on the FIRM map with an effective date of 2007, there appears to be floodplains on the subject property with a known flood elevation of 55' established from the North

American Vertical Datum of 1988. From GIS data it seems to be approximately 1-acre but it will have to be surveyed for exact area.

Wetland Impacts:

Based on preliminary aerial photo and County wetland map analysis, there appears to be wetlands on the subject property.

Endangered and Threatened Wildlife:

Based on a preliminary analysis, there may be endangered and threatened wildlife on the subject property. A listed species survey will be required prior to final engineering approval.

PUBLIC FACILITY IMPACTS

Rule 9J-5.0055(3), Florida Administrative Code, requires that adequate public facilities and services be available concurrent with the impacts of development. The applicant has elected to defer Concurrency Review at this time. The applicant will be required to undergo Concurrency Review prior to final engineering approval.

Utilities:

The site is located in the Seminole County utility service area, and will be required to connect to public utilities. There is a 10-inch water main on the east side of Grand Road and a 6-inch force main on the west side of Grand Road. The subject property is in the ten year master plan for reclaimed water. An alternative source for irrigation water, such as a shallow well, will be required until reclaimed water becomes available.

Drainage:

The proposed project is located within the Howell Creek Drainage Basin, and does not have limited downstream capacity. The site will have to be designed to meet the pre-development rate of discharge for the 25-year, 24-hour storm event.

Transportation / Traffic:

The property proposes access onto Grand Road which is classified as a local road and does not have improvements programmed in the County 5-year Capital Improvement Program.

School Impacts:

The Seminole County Public School District has prepared an analysis, which is included as an attachment to this report.

Parks, Recreation and Open Space:

The applicant is required to provide 25% of the site in open space per Section 30.1344 of the Seminole County Land Development Code.

Buffers and Sidewalks:

The proposed development is adjacent to both residential and agricultural zoning districts; therefore, no exterior buffers are required. There is an existing sidewalk along Grand Road. A 5-foot wide sidewalk may be required, and will be determined at time of subdivision.

APPLICABLE POLICIES:

SPECIAL DISTRICTS

The subject property is not located within any special district or overlay.

COMPREHENSIVE PLAN

The County's Comprehensive Plan is designed to preserve and enhance the public health, safety and welfare through the management of growth, provision of adequate public services and the protection of natural resources.

The proposed project is consistent with the following list of policies.

Policy FLU 17.5: Evaluation Criteria of Property Rights Assertions

INTERGOVERNMENTAL NOTIFICATION:

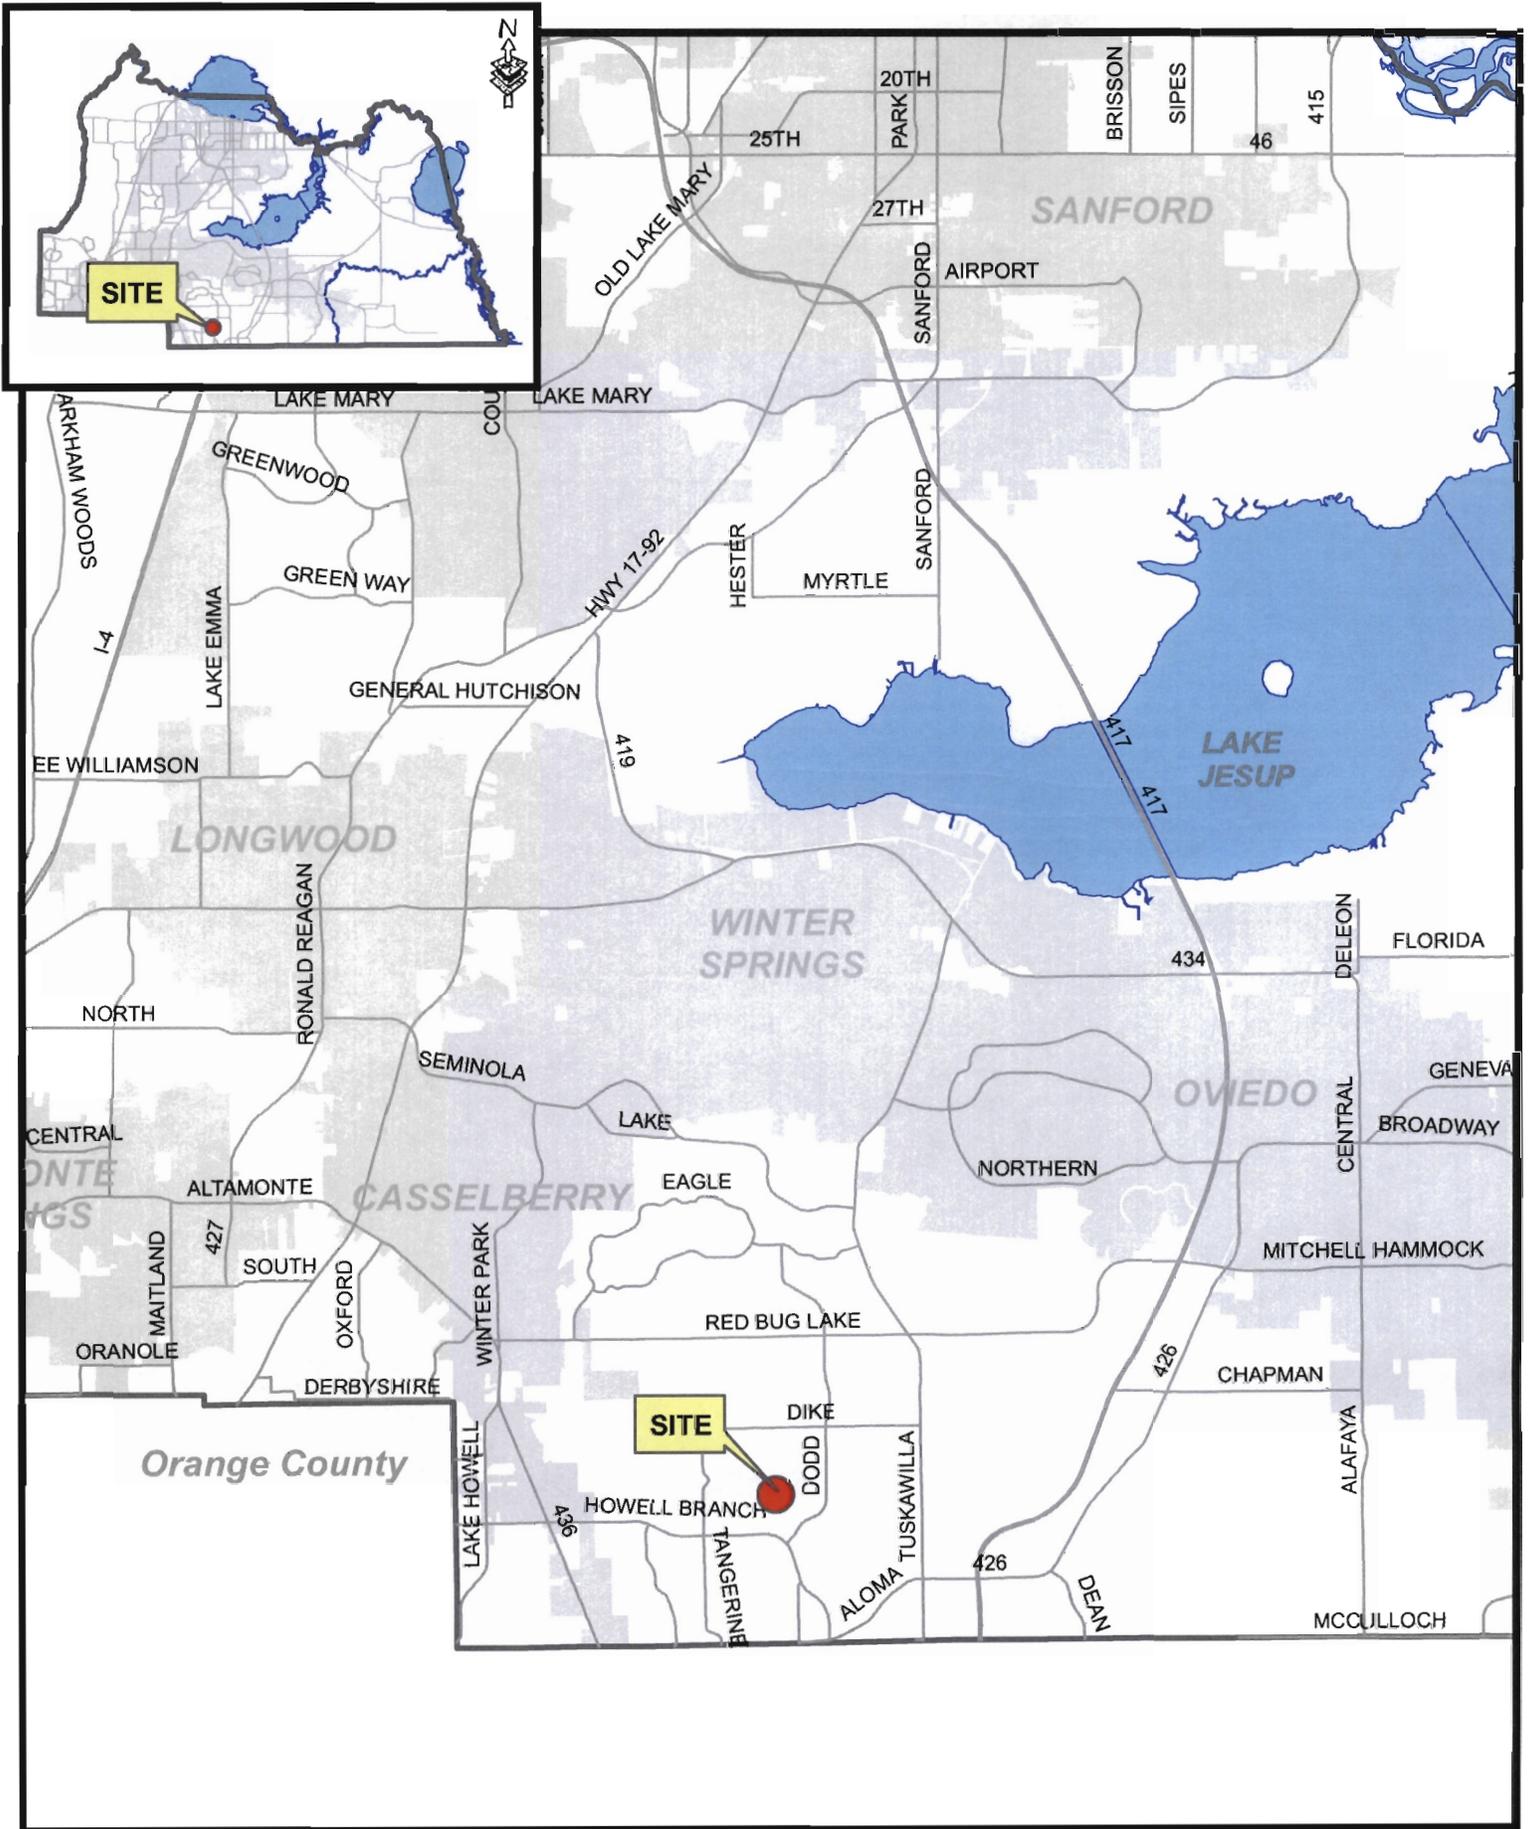

No intergovernmental notices were required for this project.

LETTERS OF SUPPORT OR OPPOSITION:

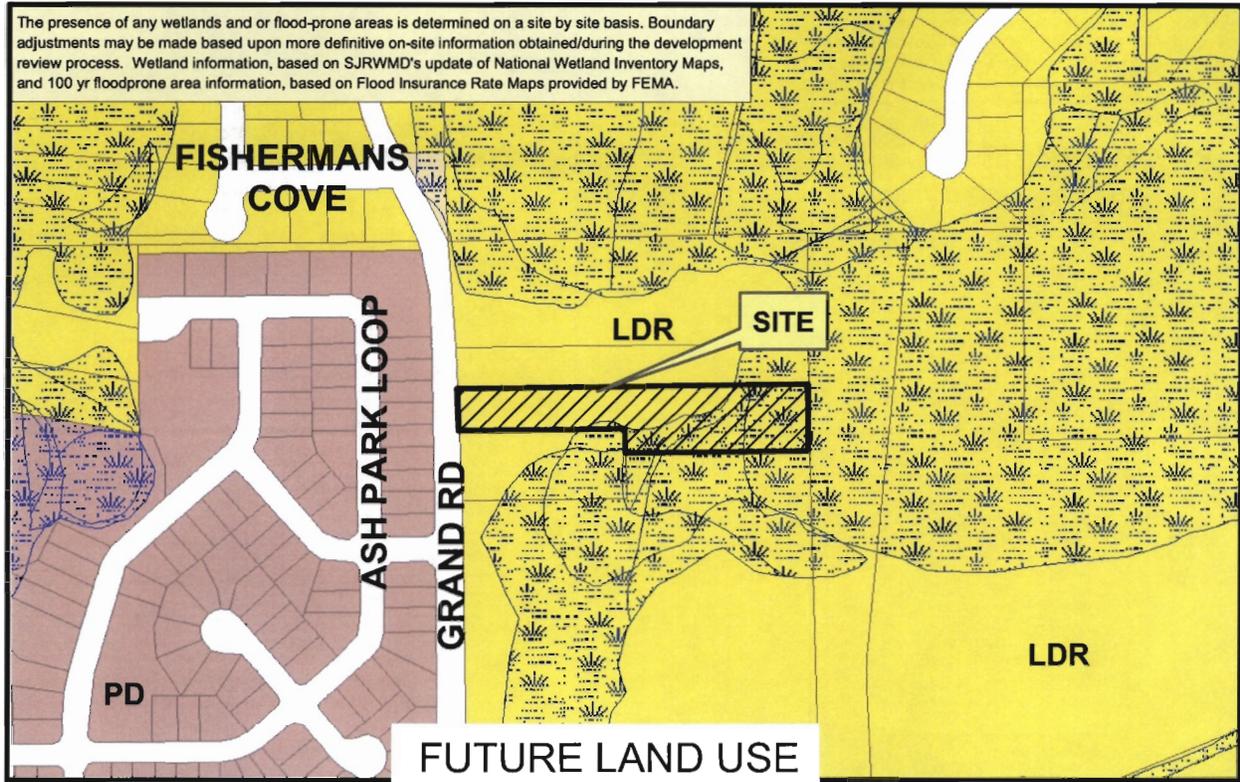

No letters of support or opposition have been received.

STAFF RECOMMENDATION:

Staff recommends approval of the request to rezone 2.31 ± acres, located approximately ¼ mile north of the intersection of Grand Road and Howell Branch Road, from A-1 (Agriculture) to R-1AA (Single-Family Dwelling).

The presence of any wetlands and/or flood-prone areas is determined on a site by site basis. Boundary adjustments may be made based upon more definitive on-site information obtained during the development review process. Wetland information, based on SJRWMD's update of National Wetland Inventory Maps, and 100 yr flood-prone area information, based on Flood Insurance Rate Maps provided by FEMA.

Requested Development Approval: Rezone 2.31 ± acres, located approximately ¼ mile north of the intersection of Grand Road and Howell Branch Road, from A-1 (Agriculture) to R-1AA (Single-Family Dwelling).

Seminole County Public Schools School Impact Analysis School Capacity Determination

To: Michael Modreski
Seminole County Board of Commissioners

From: Michael Rigby, AICP, Facilities Planner, Seminole County Public Schools

Date: April 1, 2009

RE: **Grand Road Rezone (Z-2009-04)**

Seminole County Public Schools (SCPS), in reviewing the above request, has determined that if approved, the new FULM designation and/or zoning will have the effect of increasing residential density, and as a result generate additional school age children.

Description – The project is located at the 1435 Grand Rd Winter Park, on +/- 2.31 acres in the in unincorporated Seminole County. The applicant is requesting a change in the future land use/zoning designation and seeks approval to develop a parcel containing approximately 1 single family attached dwelling unit.
Parcel ID: 26-21-30-300-02SC-0000

Based on information received from Planning and from the application for the request, SCPS staff has summarized the potential school enrollment impacts in the following table:

Type	Concurrency Service Area	Enrollment	Capacity	Students Generated by Project	Programmed 3 Year Additions	Reserved Capacity	Remaining Capacity
Elementary	E-4	2347	2594	0	0	11	236
Middle	M-3	3630	3815	0	0	22	163
High	H-3	4622	4367	0	0	10	-235

Comments:

The students generated at the three CSA levels would at this point be able to be accommodated without exceeding the adopted levels of service (LOS) for each school type. The planned expansions/additions in the current five-year capital plan would provide additional student capacity to relieve the affected schools.

Review and evaluations performed on proposed future land use changes and rezones, unplatted parcels, or projects that have not received final approval do not guarantee that the developments subject to this declaration are exempt from the school concurrency requirement, which is effective as of January 1, 2008. Changes in enrollment, any newly platted developments, and any subsequent final development approvals may affect the provision of concurrent school facilities at the point of final subdivision approval, including the potential of not meeting statutory concurrency requirements based on future conditions.
