Seminole County Adopt-A-Road Program

The **Seminole County Adopt-A-Road Program** is an opportunity for citizens to demonstrate community pride, make a positive statement for a clean, attractive community and help the county keep down the costs of litter abatement. This program has proven highly effective in demonstrating personal responsibility and changing attitudes regarding littering. It is a way for environmentally conscious citizens to make a personal contribution to a cleaner environment. Under the program, groups or individuals agree to adopt a section of road and keep it clean. In addition to a cleaner environment, volunteers are recognized by a sign erected by the road acknowledging their efforts.

What is this program?

The Adopt-A-Road Program is a program that facilitates the monitoring, clean up and enhancement of road segments in Seminole County, and is open to individuals and organizations interested in helping the environment. Any road in unincorporated Seminole County may be adopted.

Why is your help needed?

Many of Seminole County's highways are littered with trash and debris. Grassy roadsides provide habitat for birds and other wildlife. Caring for roadsides will not only make them more attractive to the traveling public, but will also make major improvements in our environment. This, along with education, will help maintain a balance with nature.

What does it mean if my group adopts a road?

The program establishes a partnership among volunteer groups, such as Seminole County Public Works Roads-Stormwater Division and the Watershed Action Volunteers program. Volunteers agree to hold a cleanup along a particular section of roadway 4 times a year for 1 year, along with 1 stormdrain marking project along the adopted section of roadway. There is also an educational component where participants learn about environmental issues.
